Fred Jenks Tried to Take the Life of Miss Spear

AIMED REVOLVER AT HER

Charles Maiers Tried to Prevent Shooting on a Crowded Thoroughfare and Received Bullet Himself-Assailant Tries to Take His Own Life

Walpole, Mass., Sept. 3.-Several housand people were witnesses to a tragedy liere yesterday which may result in the death of two young men and ts motive was jealousy. It occurred on the main street, where the sidewalks were filled with people who had come to attend the Labor day carnival.

Fred L. Jenks, a machinist at Millis, ad come to this town, and shortly afr noon time, he met Miss Myra B. pear, with whom he had been keeping ompany, but who, of late, had been t is said, cold to his attentions. Jenks egan to annoy her, and flourished a reolver in her face, threatening to shoot her if she did not reciprocate his love. The young woman ran through the rowd, and was followed by Jenks, who ras about to take aim with the weapon when he was stopped by Charles Maiers, who struggled with him to give up the revolver, but instead pulled the trigger twice. One bullet ook effect in Maiers' body, about four aches below the heart, and he fell to the ground, surrounded by an excited and angry crowd.

As soon as Jenks realized what he had done he turned the revolver upon himself, and fired a bullet into his body near the heart. The excitement upon he street was intense, and the people cattered in all directions, several having narrow escapes from being run lown by the patrol wagon and ambuance, which had been summoned. Maiers was placed on board of a train and taken to the Massachusetts general hospital, at Boston, while Jenks was placed under arrest and removed to the town hall, where medical attention was

Later' in the afternoon Jenks was taken to the Massachusetts general hospital, at Boston. He refused to talk to any one, but it is said that he dmitted coming to the carnival with the express purpose of killing Miss pears, whom, he alleged, had jilted

The latest report from both of the jured ones indicates that there is hope or recovery in each case. Maiers, who : 30 years of age, has a wife and one he car shops there.

The young woman whom Jenks eviently intended should be his victim lisappeared in the crowd, but was later found and questioned by the police Her story was to the effect that she had esented Jenks' attention to her, and Sell You Good Goods at Such Low Prices, he had become jealous of her. Jenks served in the Spanish-American war, and is about 30 years of age. Miss

A BREAK AT M'KEESPORT

Not Improbable In the Near Future-Mill Officials "Make Hay" While Labor Men Celebrate-Strikers Assuming an Aggressive Attitude

Pittsburg, Sept. 3.-The steel strikers, who have been trying for a week to get the employes of the Carnegie plant at Duquesne to come out, made gain for the old boat, and when both a last stand yesterday, and failed. A parade from McKeesport to meet the workmen on their way to the mill and induce them to remain away had been arranged, but when the hour arrived there were no marchers, and the parade was abandoned.

> The fight had been made in the oper hearth department, but, notwithstand ng a house-to-house canvass by the strikers Sunday night, only two men refused to work, and the strikers admit that there is little hope of closing the Dissatisfaction is increasing at Mc

Pittsburg was yesterday given over to a parade in celebration of Labor day. The interest, owing to the Amalgamated strike, was never as great as this year, and in the procession were workmer from almost every trade in the great industrial center. The first division was made up of the Amalgamated strik ers, with President Shaffer in com mand. It was one of the largest divisions, and the striking steel work ers were greeted with enthusiasm all along the route. The best of feeling prevailed, and there was no disorde With the dismissal of the parade ther was a general exodus to Ross Grove where a reunion of the allied trades of western Pennsylvania was held. The officials of the Star plant claim that yesterday the pickets about their mill held up a 4. cial delivery boy from the postoff with a letter for the office, and it spected the letter before he was allowed to proceed. The matter will be reporte to the postal authorities at once. It is also claimed that the strikers stone the company carriage, but did no spe-

cial damage to the occupants. The aggressiveness of the strikers was further demonstrated late yester day afternoon when a mob surrounded William Jones, a colored man, who was nistaken for a non-union man from the Star works. He had a narrow escape rom serious injury, and possible death by the appearance of Police Lieutenant Crossan, who came to his rescue. Before Crossan could secure additional aid, he was almost overwhelmed by th crowd. The prompt arrival of a large force of officers probably saved Jones from being lynched, as the mob appeared desperate.

During the parade most of the pickets were wany from the Star mill, and the company succeeded in securing several new men.

The failure of the Amalgamated peo ple to cripple the Carnegie open hearth plant at Duquesne is looked upon by the steel officials as the death blow of th strike in the Carnegle mills at least. From towns all around Pittsbu

Dr. Todd to Remain.

The people of the Water Street Presbyterian church were out in large numbers on Sunday. Some weeks ago their pastor, Rev. Dr. Todd, received a very flattering call to a western college. His parishoners were very anxious that he should remain in Quincy. Dr. Todd gave the matter much consideration and gave out that he would make known his decision last Sunday. His decision was that he had decided to remain in Quincy, much to the gratification of all.

In the windward work she gained on the Columbia 32 seconds, and also 22 a heavy puff, close to the finish line, her balloon Abtopsail split in two, and caused a tangle aloft. The Columbia was compelled to haul down her ballooner at the same time, for the squall carried away the cringle at the head of the sail, and stranded the halyards. But the big sail on the Constitution refused to be controlled, and fluttered in segments aloft and all hands had to do their prettiest to muzzle it. On the other hand the Columbia hauled down her balloon jibtopsail in seamanlike style, and smartly bending on the spinnaker halyards hoisted a reaching jib topsail in stops, and, breaking it out quickly darted across the line a winner.

Good Afternoon.

It is not surprising that the City Council voted this week to request the Committee on Public Buildings to re port relative to the new schoolhouse a Quincy Point. The surprise is that here has been such a delay in starting the erection of this building which i generally conceded to be urgently needed. The city has purchased land and is paying interest on the same and should receive some benefit from it The best season of the year in which

to erect buildings is now passing. The delay in reporting is said to be the result of differences in the Committee on Public Buildings over an mittee is not final and if they canno elect plans they should submit what plans they have, and let the City council decide. When bloodroot blooms and trillium flowers Unclasp their stars to sun and rain,
My heart strikes hands with winds and shower And wanders in the woods again.

Oh, urging impulse, born of spring, That makes glad April of my soul, No bird, however wild of wing, Is more impatient of control!

Impetuous of pulse it beats
Within my blood and bears me hence; Above the house tops and the streets I hear its happy eloquence.

It tells me all that I would know, Of birds and buds, of blooms and bees; I seem to hear the blossoms blow And leaves unfolding on the trees.

I seem to hear the bluebells ring Faint purple peals of fragrance and The honey throated poppies fling Their golden laughter o'er the land.

I hear its far voice night and day; I cannot choose but go when tree And flower clamor, "Come away!"

It calls to me; it sings to me;

#### COLUMBIA IS DEFENDER

Decision Reached by Cup Challenge Committee

NEEDS FEW ALTERATIONS

Unnecessary-Old Craft Said to Be Never So Competent to Race as at the Present Time

Newport, R. I., Sept. 6 .- After carefully weighing the relative merits of the Columbia and the Constitution in the light of 18 finished races which the boats have sailed this season, the challenge committee of the New York Yacht club vesterday decided that the Constitution was too much of an unknown quantity and that the America's cup would be safe by being defended by the Colum-

The decision of the committee was no surprise to those who have been closely watching both boats during the season, although it was disappointing to the syndicate which built the Constitution, and especially so to Mr. Duncan, who has managed the boat most faithfully since her keel was laid last winter. The committee, however, felt that they should look at the problem from all sides, not only as to the models of the two boats, but as to the sails and the handling; and they came to but one con-

Mr. Duncan was interviewed at lengtl vesterday afternoon, and said that one of the gravest mistakes of the season was the taking off of the old mainsail of the Constitution, under which the yacht was winning races, and trying a new had no criticism to make as to their as if the gift will be refused. work. It should be remembered that Captain Barr made no mistakes when he sailed the Columbia against the first Shamrock, and many expert yachtsmen in Newport are confident that the old craft was never so competent to rac as at the present time, and that her officers and crew are in thorough shape to do their duty.

#### An Advance Protest New York, Sept. 6 .- A special to The

World from Boston says: Thomas W. Farnsworth, as chairman of 50 American citizens, yesterday sent to the New York Yacht club a letter, protesting against the right of that organization to exclude the Independence from entering the trial races, and threatening, in the event of the Shamrock II lifting the cup, to ask an injunction from the United States court, to prevent the club from turning over the cup to Sir Thomas Lipton. The letter declares that when the cup was brought to this country any American citizen had the right to enter the yacht races. Mr. Farnsworth says the letter is not written in behalf of Mr. Lawson, but simply as a matter of principle, and to deny the New York facht club's claim that to enter his 150 metres. On descending he exboat a man must be a member of that club. The letter states that Sir Thomas | with the improved machine, and an-Lipton has been notified of the intention of the Boston committee.

#### STRIKE INEVITABLE . Western Coal Miners Fighting For Recognition of Their Union

Pittsburg, Kan., Sept. 6 .- 'The miners' strike situation looks more serious. The miners' national board has author-Ized the district board to use extreme measures, if necessary, to force the Big Four operafors to terms.

President Richardson of the Miners' union says: "We will order a strike at once if we can find no other way of securing a settlement. Ninety percent of the men will walk out." State Labor Commissioner Johnson i

here, and has offered his services as Further Tuning Up Thought to Be arbitrator. The district board decided, however, that arbitration is not wanted for the present. All the companies are preparing for

trouble. Stockades are being built about the mines and guards are being posted. There is bad feeling between union and non-union men, and serious trouble may ensue.

The miners' district officials will meet today and canvass the situation. The calling of the strike can hardly be avoided now, as failure to strike would mean in the minds of the miners the disorganization of the union. The companies have offered the men every concession except the recognition of the union.

#### On Murderer's Trail

New York, Sept. 6 .- By the confession of Depaline Tameline, the Italian suspect detained in the case of the murder of Labor day, Acting Captain Woodruff says the arrest of the murderer is a question of hours only. Captain Woodruff says the murderer is the wayward son of prominent and wealthy people. His passeion for money caused him to Jure Dura to the woods, where he killed him. There was no woman in the case.

> In some cities they are talking of starting anti-noise leagues, and at times we feel inclined to hail this idea with enthusiasm. We never are more inclined to feel that the anti-noise league s a good thing that ought to be pushed along than when some able but too strong-lunged driver desides to back his horse into or out of an alley. Such howls and yells and expletives as immediately greet the ear, make the man lying fifty feet away a feeling that the devils in the other land have ust started in to sing a welcoming chorus for him. Little bendings are in progress all the time the world over. The "immovable" hills are bowing and scraping to each other constantly. How to Learn to Like Pictures. The following suggestions, if you please, are not from an artist nor even from a connoisseur, the writer being nothing more than an ordinary picture lover. In general the principle to be followed is to get as much in an atmosphere of pictures as possible. Always go to the museums when you are traveling, and if you live near enough make occasional picture visits to Boston, Chicago or New York. Do not make the mistake of staying too long in a gallery. You only tire yourself. Half an hour is quite long enough. But do not endeavor to look at every picture in the gallery in that time. Look long at a few good ones and let those you look at be those you like or at least those which you prefer above the others. Also ask yourself why you prefer them. Always get a catalogue. Sometimes the pictures are not marked, and you as a student want always to know

Whale Houses. At one time not very long ago there was on the Lancashire coast, near Lythan, England, a cottage and boat house that were made almost entirely from the remains of a score or so of whales that had been driven ashore some years before. The framework of the edifice consisted wholly of whalebone, and the dried skins of the huge creatures were neatly and strongly fastened as a covering for walls and roof. There is another building of exactly the same kind at Peterhead, in Scotland, and in this case the skulls of the whales and some of the heavier bones

### That President McKinley Will Recover.

Buffalo, Sept. 7 .- President McKinley was shot and seriously wounded by a would-be assassin while holding a reception here yesterday afternoon. One shot took effect in the right breast, the other in the abdomen. The first wound is not of a serious nature, and the bullet has been extracted. The latter pierced the abdominal wall, and has not been located.

The following bulletin by the attending physicians is the only indication of the condition of the president's wounds: 4 a. m. The president continues to rest well. Temperature, 101.6; pulse, 110; respiration, 24. It was a few moments after 4 p. m.,

while President McKinley was holding a public reception in the great temple of music on the Pan-American grounds, that the cowardly attack was made, with what success time alone can tell. Standing in the midst of crowds numbering thousands, surrounded by everyevidence of good will, pressed by motley throng of people, showered with expressions of love and loyalty, besieged by multitudes all eager to clasp his hand-amidst these surroundings and with the ever-recurring plaudits of an admiring army of sightseers ringing Now a surging, swaying, eager mult ude throngs the city's main thorough fares, choking the streets in front of the principal newspaper offices, scanning the bulletins with anxious eyes and groaning or cheering in turn each suc

Elm Leaved Goldenrod.

It is well known that when a plant grows in shady places it is likely to have a greater leaf area than when it grows in the open sunshine. It must have a larger surface to collect the light when the latter is comparatively dim. Now, most of the goldenrods live in the open fields, having rather narrow leaves, but the exquisite elm leaved goldenrod lives in woods and copses, made his way out, but he reeled against where the shadows are thick and direct sunshine is a fleeting thing. Topic.—Heavenly helpers.—II Kings vi, 15-17. great expedition of Benhadad, king of | bara, Cal. Syria, into the land of Israel, during which occurred the famous siege of prophet. The morning after the encompassment of the city Elisha's servant went out early to reconnoiter. When he saw the greatness of the besieging host, he was alarmed, and, hav- McCord, Congregationalist, Chicago. ing returned, said to his master, "How shall we do?" Elisha replied, "Fear help you to mount. Dapple, take this not, for they that be with us are greater than they that be with them." He then prayed for the Lord to open his servant's eyes, "and the Lord opened the eyes of the young man, and he saw and beheld the mountain was full of horses and chariots of fire round about Elisha." And, later on, at the sound of this invisible host, the Syrian fled, and Israel was delivered. Thus Israel was helped by heaven helpers.

1. Heavenly helpers are real; these hosts of God were real, though invisi- God concerning the world.-Rev. "The angel of the Lord encampeth around graphs and factories and machine about them that fear Him to deliver tools .- Rew. Dr. David Utter, Unitathem." Human experience corroborates the testimony of Scripture. By faith men have seen and been helped by God's ministering angels. As they have been, so may we be.

2. Heavenly angels are a necessity. God's people are in constant conflict Methodist, Atlanta. with His enemies-"the world, the flesh and the devil." These enemies are shrewd and powerful; man alone could pear in contrast with them as Israel appeared when compared with the army of Syria. Hence arises the necessity of help from God from the heavenly world. It should be our custom to depend upon this help and not upon our own strength in meeting the temptations of life. Our enemies are real; our weakness is great. Our need of divine help is imperative. Above all should we look unto Jesus for grace to help in time of need. He, above all others, is the best heaven helper.

3. Heavenly helpers help. Many so called helps in life are not very helpful. Some hinder and harm rather than help. Not so the help that comes palian, New York. from heaven. It actually helps. McCloud Says He Murdered the McDonald Woman

GIVES DETAILS OF TRAGEDY

Knocked Victim Down With His Fist and Beat Her Into Insensibility, Con.pleting His Crime by Mutilation -Lays Blame on Strong Drink

Kittery, Me., Sept. 7 .- The full and unreserved confession of the murderer late yesterday afternoon furnished the authorities of York county with the solution of the mystery surrounding the killing of Mrs. Sarah McDonald, otherwise Sadie Waldron, at Battery point last Tuesday night.

The confession was made by Charles A. McCloud, an ignorant section hand of vicious habits, upon whom strong suspicion was fastened as soon as it was learned he hastily left a trolley car on the night of the tragedy to wait for the woman who was returning home from Portsmouth

McCloud, who had been in custody pending investigation since Wednesday night, was last night formally charged with murder, and was arrainged before Justice Neal. The prisoner was held without bail for the September term of the York county court.

The confession was made by Mc Cloud to Sheriff Fogg of Sanford. The deposition was taken in legal form, and includes all the revolting details of the

He then drank what remained of the whisky he had and threw the empty bottle beside the body and left the spot. He had torn off the bottom of the victim's petticoat and used it to wipe the blood from his hands. He threw the cothing into some bushes and started for home. He reached the house at 3 o'clock in the morning.

McCloud has a family. Before his marriage he became acquainted with the Waldron woman at his father's house, where she was housekeeper for some time. Young McCloud and the woman quarrelled about a number of articles which had disappeared from the house and which she was accused of stealing. The woman left the Mc-Cloud home soon after this, and since that time the younger McCloud and she had not been friendly.

This reappearance of Josiah Quincy will do the Republican party in Massachusetts more good than harm. It will stir its leaders to renewed activity. It is always good for a political party to have a worthy foe, rather than a weak, helpless one. It is doubtful if the Republican party is beaten in the state any time within 10 years, but if it is no great harm will be done, for it will not stay beaten long. The chances are that any increased strength the Democracy may show will result in corresponding gains in the Republican ranks, and thus Quincy will by his leadership help his enemies as much as his friends. -Worcester Gazette.

QUINCY'S NEWEST SCHOOLHOUSE.

One of the most sightly school buildings in Quincy is the Cranch school. It is situated at the junction of Whitwell and Cranch streets and besides being sightly is the last school building erected by the city.

It was opened for the first time last January with James M. Nowland as Master. It is a nine-room building, and has among other conveniences a bathroom which is a new idea for Quincy, and is the first to have that lux ay.

The building is named for Richard Cranch, whom Pattee's history tells us, was an extensive reader of books and was a learned man, especially in theology. He received the degree A. A. S. in 1780 from Harvard, and represented the town in the Legislature. He was the justice that called the first town meeting in Quincy, after it was incorporated and to him was given the honor of naming the town, which he called "Quincy." He was also Quincy's first postmaster and was judge of the court of common pleas in Massachusetts. He died at his residence on School street, Oct. 16, 1811, aged about 85 years.

How many mothers realize that when with coming maternity. They have not strength enough for themselves, how we expect the birth of strong children from weak mothers?

The way to ensure health and strength to mother and child is to use Dr. Pierce's Favorite Prescription as a preparative for motherhood. It brings the mother's strength up to the requirements of nature, so that she has strength to give her child. It nourishes the nerves and so quiets them. It encourages a natural appetite and induces refreshing sleep.
"Favorite Prescription" makes wear women strong and sick women well. There is no alcohol in "Favorite Prescription" and it is

free from opium, cocaine and all other narcotics. caine and all other narcotics.

"I wish to let you know the great benefit my wife derived through taking your 'Favorite Prescription,'" writes Mr. Robert Harden, of Brandon, Manitoba, Box 235. "It was when her baby came. We had heard so much of your medicine that my wife decided to try it (I may say my wife's age was thirty-three and this was her first child). She commenced to take 'Favorite Prescription' five months before her child was born. We have a fine healthy girl, and we believe that this was mainly owing to the 'Favorite Prescription,' taken faithfully according to directions. We shall certainly recommend it wherever we can."

A murmur arose, spread and swelled to a hum of confusion, then grew to a babel of sounds and later to pandemonium. The crowds that a moment before had stood mute and motionless in bewildered ignorance of the enormity of the thing now, with a single impulse, surged forward toward the stage of the horrid drama, while a hoarse cry swelled up, and a thousand men charged forward to lay hands upon the perpetrator of the dastardly crime.

For a moment the confusion was terrible. The crowd surged forward, regardless of consequences. Men shouted and fought, women screamed and children cried. Some of those nearest the doors fled in fear of a stampede, while hundreds of others from the outside struggled blindly forward in the effort to penetrate the crowded building and solve the mystery of excitement and panic which every moment grew and swelled within the congested interior of the edifice.

Inside, on the slightly raised dias, was enacted within those few feverish moments a tragedy, so dramatic in character, so thrilling in its intensity that few who looked on will ever be able to give a succinct account of what really did transpire. Even the actors who were playing the principal roles came out of it with blanched faces, trembling limbs and beating hearts, into a lucid narrative of the events squads of three or four. as they really transpired.

#### Wonderful Self-Possesion

But of the multitude which witnessed or bore a part in the scene of turmoil and turbulence, there was but one mind which seemed to retain its equilibrium, one hand which remained steady, one eye which gazed with unflinching calmness, and one voice which retained its even tenor, and faltered not at the most critical juncture.

They were the mind and the hand and the eye and the voice of President Mc-Kinley.

After the first shock of the assassin's letectives leaped upon his assailant, he turned, walked steadily to a chair and sented himself, at the same time removng his hat and bowing his head in his

In an instant, Secretary Cortelyou and President Milburn were at his side. His waistcoat was hurriedly opened, the president meanwhile admonishing those about him to remain calm and telling them not to be alarmed.

"how is it possible that we should marry, having already silver hairs?"

"Then it shall be a silver wedding." And the king gave the couple silver enough to keep them in plenty.

Such was the origin of the silver wedding, a custom which, spreading all through France, subsequently became known to the world.

A lobster is found in the water, but not always-in fact, some of the most successful lobsters that ever lobstered were born and raised on dry land.

One can usually tell a lobster by its actions. For instance, if a young man enters a crowded drawing room and walks all over the feet of the assembled guests without their consent or approval the young man at once becomes a lobster.

The fathers of lobsters usually have money. In fact, it is difficult to be a real stand up and fall down lobster unless the lobster's father has money. It is an odd fact that many girls seem to admire lobsters. It would seem that a girl ought to know better, but she doesn't until she marries a lobster. Then she tumbles.

The prosperity of the little fish in the baseball world this year clearly indicates that the affairs of the clubs have been conducted upon a more sensible basis than was the case a few years ago. While I have always been in entire sympathy with the ball player when it comes to the question of salary, there is no use trying to disguise the fact that in a great many cases the managers of minor league teams have paid salaries to some players out of all proportion to the gate receipts.

The tendency to star some particular player in the smaller leagues is just as noticeable as in the larger associations. The case of Steelman, the catcher of the Hartford club, is a case in point. Brooklyn did not need this back stop early in the season, and an arrangement was made with the Hartford club by which Steelman went to that city subject to the recall of the Brooklyn club whenever Hanlon might find the services of Steelman necessary. Now, Steelman signed with the Brooklyn club at a certain salary, but when he went to Hartford he objected to the temporary transfer unless it was made to his advantage. than the son. Arnold, the son, walked into the Pittsfield police station and said he had shot and killed his father. He said that his father came home intoxicated during the afternoon, and began ill-treating his mother and sister. The son asserts says that he tried to calm his father, but this added to his parent's anger, and so, in fear, he ran into the house, picked up a small rifle and ran back into the yard. Arnold says his father again came toward him with the uplifted club. Raising the rifle to his shoulder, the son fired, and his father dropped to the ground, with the exclamation, "Oh!"

He died almost immediately. The son said he immediately walked into Pittsfield and gave himself up. The officers locked up the young man, cers went out to the farm and saw the body of the elder Brielman and heard commit murder. It is settled that the what Mrs. Brielman and the girl had to say. #### Bible School Picnic.

A twelve-year-old boy has written the following report:

The Bethany Bible school held their annual picnic, Saturday, at Mr. King's on Adams street. Barges left Chestnut street every hour for his residence.

There were swings put up on the trees and the children occupied them a good share of the time.

The first game played was croquet. There was also a game of horseshoe for ladies and gentlemen over the age of fifteen years, and for girls and boys under the age of fifteen. After this Mr. King had a carriage decorated in red, white and blue bunting and the given a ride in what was called the 'King's chariot."

With the banishment of the high turned down collar the bow tie will go. There will be very few bows of any kind, notwithstanding the craze in England over the bow with the hanging wings. In all ties dark colors will prevail. The shades will be quiet, though distinct, and there will be some colors that have not before been introduced in the United States. One of these will be the paisley shade, which is a blending of a great variety of colors. You can look at a tie made of this coloring and see there any color you want to

No comparison is possible. and hope mounts higher and higher until, in the minds of some, the danger of all future complications is brushed aside and hope has become conviction. Indeed, many of the president's friends seem possessed with a sort of superstitious confidence in his recovery. And the basis for the confidence is solid.

There has been nothing but improvement, gradual and slow, but steady improvement. Every bulletin, every private and public word of the physicians in attendance, breathes encouragement. ident Roosevelt and the members of the cabinet would be difficult to overstate. "I am absolutely confident everything will turn out all right," declared the vice president, and he said he based his confidence on information behind the public expressions of the physicians. So relieved are Secretary Gage and Attorney General Knox at the steady improvement, that they returned to Washington last night, feeling strongly that their chief would recover, but with the assurance of the physicians that if a change for the worse should come it would be gradual, and that they would have ample time to return.

The chief effort of the detectives was to draw from the prisoner some admission as to his accomplices, but he persistently stuck to his denial that he was assisted in any way in the commission of his crime. Every possible device was resorted to in the effert to obtain the information, but the prisoner maintained his position and could not be shaken. In answer to questions he in Straight street, where they nearly all again went over the events of Friday, and told, subsequently, the same story

as in the original confession. Czolgosz carefully weighed his answers, and when conclusions that he did not approve were taken from his statements, insisted upon making explanations of his exact meaning. The police have about concluded that more effective work on the plot theory can be done on the outside, although Czolgosz will probably have another experience with the third degree of police craft today.

The general investigation of the case progresses slowly because the men on it must cover a large amount of prelimwork. According to the local authorilittle about the anarchists. ### Successors to Green & Prescott. Subscription Price, \$6.00 per year. Back Water Taken on Howard Avenue.

Three Committees Asked Report at Next Meeting.

At Monday night's meeting of th City Council the members were obliged to get along as best they could without desks, as the desks which had become somewhat damaged by fire were away undergoing repairs. The chairs were placed in a semi-circle more like a family gathering.

President Bryant was a little late in arriving and it was 7.45 before he rapped for order. Councilmen Adams, Kay as deputy Sealer of Weights and Alden, Bass, Hultman, Nicol and

Thompson were absent.

COMMUNICATIONS. The Mayor in a communication stated that he had appointed George Weston, clerk in Precinct One, Ward Two in place of Rollin H. Newcoml and the latter an inspector in place of George Weston.

The Mayor also forwarded a reques for \$150 for additional clerk hire in the Tax Collector's office. Laid on the table until later when an order was offered.

Notice was received that the Harbon and Land Commissioners would give a hearing Wednesday, Sept. 18, at 1: o'clock, on approving plans for the new Quincy Point bridge.

The auctioneer's bond of Charles H. Johnson was approved.

The Democratic City Committee re quested polling places for caucuses Sept. 26. Laid on the table until later when an order was offered.

UNFINISHED BUSINESS. The appointment of election officers was confirmed.

PETITIONS. The Old Colony Street Railway petiioned for the location of an additional track on Hancock street between Johnson avenue and Merrymount Park.

t was in order. President Bryant said it was.

In reply to a question of Councilman DeNormandie, as to how the Finance Committee got the order President Bryant replied it was introduced by Councilman Newcomb at the last meeting. Councilman Nichols-I voted for the original order but do not believe after an order has passed the City Council New and Second-Hand it can be amended. It did not seem wise. He believed it would establish Quincy, Mass. a bad precedent.

#### Anarchists in Quincy.

It is quite generaly understood that there are a number of anarchists in Quincy, but how well organized they are is a matter about which few outside their circles know. The member quested to report at the next meeting ship in Quincy is largely made up of Italians, known as Tuscans. A large number of these held a jollification meeting in the woods at West Quincy on Sunday.

They had plenty of beer and made a day of it. The man who shot President McKinley was toasted time and time again. He was called a hero and repeatedly cheered.

### BOSTON POLICE MOVE

Evidently Intend to Idvestigate the Doings of Anarchists Boston, Sept. 10.-What can be done

with the anarchists in Boston is a question puzzling the police. There have been reports of anarchist meetings held Sunday, at which Czolgosz was glorified, but these have not had much substance. Nevertheless, the police yesterday had Fingold, an anarchist, brought to police headquarters for an examination. He admitted that there was a meeting Sunday, but would not tell the names of the other members. He said he had approved of the act of Czolgosz, and acknowledged saying things decidedly anarchistic. Leaving For Home

The vice-president, members of the cabinet, Senator Hanna, and the other distinguished friends of the president who have remained here to await the issue, accepted the verdict of the physicians yesterday as practically conclusive and there was an exodus of those who considered their presence no longer necessary. #### A Talk With Roosevelt

Vice-President Roosevelt left the city last night at 9:30 for Oyster Bay, perfeetly confident that the president will recover. Questioned as to the mode of procedure as far as the state was con cerned, he said:

"I see no need for the call of an extra ordinary grand jury. The grand jury now in session, composed of American citizens, will undoubtedly take care of the would-be assassin and the authorities of Erie county will, for county, state and national pride, make a vigorou prosecution. Unless Governor Odell is asked to interfere, I see no need of his calling an extra term or deputizing an assistant attorney-general to prosecute

Asked as to the enacting of legislation against anarchists he said: "I have no thought much on the the matter. What has disturbed me has been to find reason for even anarchists to attack man like President McKinley. Here l the one country where they are allowed perfect freedom of speech. Here as the ruler is a man, descended from farme stock, self-made. Here is a man who has no fortune or no means other than that which he may manage to save out of his salary as president. Probably many a working man in the United States has as large an amount of real estate as Mr. McKinley. In addition he is a kindly disposed Christian gentleman and in every great emergency in which he could act he has been a olds, Dr. McBurney, after the morning friend of the common people. #### A Certain Cure for Dysentery and Diarrhoea,

"Some years ago I was one of a party that tended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa. "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward of the Laceyville Messenger. suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by all druggists.

Doctors Bring Reassuring News From Sick Room

Official Announcement of Absence of Any Blood Poisoning

Buffalo, Sept. 12.-The condition of the president continues favorable and nothing has occurred to shake the confidence of the attending physicians. The danger from two sources is now pronounced practically over. The holes in the stomach proper, caused by the bullet, are now considered healed by Dr. McBurney and his associates, who, as proof of this, point to the fact that the dent Tuesday night, was readily di-gested. Sufficient time has also elapsed to warrant the doctors in asserting that | DIAGRAM SHOWING WHERE BULLETS EN the danger of inflammation where the bullet lodged has disappeared. It is believed that the ball has now become eneased in the muscles of the back, and, unless its location should prove trouble some later on, there will never be any necessity for removing it. The attention of the physicians is now, there ore, mainly directed to the care and reatment of the wound caused by the incision made in the abdomen when the operation was performed. This wound is progressing satisfactorily.

### Drift of Opinion.

Every minister and every physiian fit to practice medicine, whether for the soul or for the body, knows that cheerfulness, confidence, hope, ex pectation and desire, are powerfu agencies in the maintenance of goo health and the healing of diseases. In my wholesome ministration they who are wise know that all the resources of cience and all the devices of invention should be used to the utmost, and that after they have done their best, o while they are doing it, a cheerfu mind will double their efficacy. Faith will not set a broken bone, but it wil assist greatly in the healing after the surgeon has done his work. A faithfu ister of Voters and of receiving evidence of physician once told his patient that qualifications from persons claiming a right to nothing but a cheerful confidence kept said that many patients used up in anxiety, between the attacks of the disease, the strength which would have carried them through. Every physician knows that some people lie down and die with slight ailments who might have lived if they had cared to live or if they had been courageous enough to throw off the misgivings which pre pared them for more violent disorders. One man having a cold attends to it with cheerfulness and soon recovers Another falling into a mood of depres sion, makes himself a hospitable host for the germs of pneumonia, and so dies. Science, common sense, and the ordinary experiences of mankind furnish ample evidence of the remedial value of faith, hope and charity. -Christian Register.

At Rest.

Saturday evening, Sept. 7, after ong and severe illness, Mrs. Maria E. Hanscom passed from earth. Mrs. Hanscom was the mother of Mrs. Rev F. I. Knight and ever since her daughter's marriage, lived with her in Wollaston.

The funeral took place Tuesday, Sept. 10, at 2 o'clock P. M., Rev. Edward A. Chase officiating. The Weber male quartet of Boston furnished the music. The floral gifts were many and beautiful.

The services were largely attended by her friends from Quincy and out of town, many coming from South Boston where Mrs. Hanscom formerly resided She was buried in the family let at Cedar Grove cemetery.

Of a purely unselfish nature her thoughts and aim were always for the good and comfort of others and even during her pain and weakness she was wholly forgetful of self. Heroically she bore her illness without a murmur and with the greatest patience and hope waited for the time when release should come and when she could enter her heavenly home.

Found Dying.

"Success" is the title of a monthly magaine that seems to be a success in more ways than one. The magazine in itself is a success, being full of interesting matter. Its articles are on the success of the leading men of the day, written by well known writers. It encourages the poor but ambitious boy and tells how to enter and succeed in great professions. There are pages for mothers and daughters; the home circle; the best in fiction; biograph and achievement; in fact, Success has something to say to every member of the family. HON. JOHN D. LONG. Copyright, 1897.

French of Braintree represented the board of trustees, while Rev. Mr. Whitehouse of the Braintree Baptist church and the pastor of the Holbrook Baptist church, were guests.

Rev. George A. Thayer and Secretary Long were heartily applauded by the school, on entering. It was very pleasaut to see both of these cheerful faces. The former has been present to open the school exercises for twenty-five years. He impressed upon the scholars the necessity of a good past, as one must judge his future by his past.

In introducing Hon. John D. Long. Dr. Gallagher alluded to the sad fate of our highest official. Secretary Long spoke of the sympathy of the people of the country for the President and his

Another Gentleman Prominently Named Declines.

### Cincinnati, Ohio, and Hon. Asa Ward Three Will Have a Candidate.

Wollaston May Present Messrs. Jameson or Bryant.

Since the declination of Mayor Hall to be a candidate for a third term, many prominent Republicans have requested George A. Sidelinger, the efficient City Auditor, to become the Republican candidate. But requests and plan, also a curved track extending from its present tracks on Hancock street to a private way substantially as shown by the red lines of said plan, also that it may be granted authority to erect all poles and wires necessary for the proper operation of its cars by electricity of said new locations, that a public hearing be given by the City Council to all parties interested, on FRIDAY Evening, Sept. 27, 1901, a 8 o'clock, in the Council Chamber, City Hall and that at least fourteen days' notice of said hearing be given by the petitioner by publishing a copy of this order in the Quincy Daily Ledger and Quincy Advertiser.

Adopted Sept. 9, 1901. entreaties have been without avail. It would be a happy solution of the situation if Mr. Sidelinger would assent o the use of his name, as it is believed the Republicans could unite on him, and not only nominate him, but elect him triumphantly, but he positively declines to become a candidate or allow the use of his name. Mr. Sidelinger hails from Ward Two, and has been in the public service many years: first as Councilman from ward, then as Councilman at-large, and has served nearly two years as City Auditor.

Ex-Concilman Edward E. Jameson as been approached since the declination of Mr. Sidelinger. At first he did Photo by J. E. Purdy & Co., Boston, not regard the desires of his friends eriously, as it was furtherest from his thoughts to become a candidate for Mayor either this year or in the future. He does not wish to be considered a candidate now, but it is said he would not decline if nominated. I would be a case of the office seeking the man, which is unusual in these

It is said Ward Three will enter the onvention with a candidate, and that ex-Councilman and ex-Sewer Commissioner Fred L. Jones is the man. He has been favorably considered in the past for this important office, and once n a canvass of less than a week lacked but three or four votes of the Republican nomination.

Ex-Councilman Elisha Packard, who carried Ward One last year, is the only Republican who has announced his candidacy, and his friends say he is stronger than last year, and that he will be nominated. His election would probably mean several changes Telephone 122-2. Quincy, Mass. in city officials.

Many, however, expect that this is harles M. Byant's year, and that the President of the City Council will be as successful in the convention as he has during the year in shaping the legislation of the City Council. In this case President Bryant is a conundrum, as it is not known whether he Houses, Stores, Land, will enter the field or not. One rumor has it, that he is now the choice of the

King Alfred's Camp.

The approaching millenary of Alfred the Great lends special interest to the estate of Winklebury, in Hampshire, now in the market, says the London Chronicle. It contains the well known circular camp of that name, said to have formed a stronghold of Alfred. Excavations just made by Reginald Smith of the British museum have brought to light fragments of ancient British pottery. An examination was also made in the autumn of last year, and on both occasions bones of extinct animals have been discovered showing traces of fire, probably sacrificial. The camp is believed to have existed before the Roman invasion. It was occupied as late as the seventeenth century by the parliamentary forces when besieging Basing House.

Serious Reaction In Condition of President

Patient This Morning Shows Weakness of the Heart

President McKinley experienced a sinking spell shortly after 2 o'clock this morning. The physicians are administering restoratives to him, with the hope of reviving him.

A general call has gone out to the physicians, and the members of the

Drs. Mynter and Mann came to the Milburn house at 2:40. At 3 o'clock all of the physicians were

gathered around the bedside of the president. It was stated that digitialis was administered to the president.

Beyond the statement that the president is critically ill no further announce ment has been authorized, but it is manifest that the wounded president faces a grave and menacing crisis. Alarm can be read in the actions of those to whose nursing and care he is committed. The scene about the house is a dramatic one. The attendants can be

DR. MATTHEW D. MANN.

Today will probably show whether the complication that has arisen is of a serious character. The food given to the president yesterday morning was not properly assimilated and passed, and the administration of food by the mouth has been discontinued. The president continued to complain of the fatigue, noted by the official bulletin in

His temperature was considered entirely too high. One of the consulting Black Cheviot Dress Skirts with circular flounce, physicians said that judged by medical acceleration of the pulse was attributed against the food.

contrary to the usual custom, slipped away by the side entrance. This in itself was considered significant. Heretofore they have not failed to give ver bal interpretations of the official bul-

letins to the newspaper men.

Dr. Stockton, a local general prac titioner with a high reputation, was called in for the first time last night, it being explained that the complication that had arisen was one with which a physician and not a surgeon would have to deal.

The president several times yester day afternoon complained somewhat of fatigue. That was the only disquieting word which came from the sick room during the day. The presi dent had had a restful night and the beef juice which the doctors gave hin Wednesday had been relished so keenly that yesterday morning he was given solid food for the first time. He was bathed and then enjoyed a breakfast of chicken broth, toast and coffee. He felt so well after this somewhat substantial meal that he asked for a mild

Dr. McBurney, the dean of the corps of attending physicians and surgeons, was thoroughly satisfied with the patient's condition, and went to New York at 1 o'clock. His intention is to return in a few days unless his presence should be required sooner. Meantime he will keep in constant touch with the Milburn house. Secretary Root also left on the same train.

A slight reaction, however, followed the buoyancy of the morning. The president complained of being tired. The attending physicians at the afternoon consultation chronicled this fact with scrupulous care. They displayed no alarm. The doctors said the presi dent's restlessness was only natural and what might be expected. "Besides his breakfast did not specially agree with him," said Dr. Mynter. "The pres ident is feeling the strain of his long seige without food, no nourishment at all having been administered during the first three days and lying day and night in practically the same position is fatiguing and hard for even the most exemplary patient to bear without mur-

The non-success of the treatment added at midnight the relief so much desired bowels within a few minutes. This gave great encouragement and changed the character of the bulletin which the

physicians were then preparing.

Herr Most Gathered In New York, Sept. 13.-Johann Most, the most widely known of New York anarchists and editor of The Freihelt, the organ of the anarchists, was arrested last night by central office detectives. Most objected volubly to the arrest, but to no purpose, and he was locked up as "a suspicious person." The complaint against Most is based on an editorial which Most printed in The Freiheit, The editorial reads in part: "The greatest of all follies in the world is the belief that there can be a crime of any sort against despots and their accomplices. Such a belief is in itself a crime. Despots are outlaws. To spare them is a crime. Yes, the crime, directed against them is not merely a right, it is also the duty of everyone who has the opportunity to carry it out, and it will be his glory if it is successful."

A Lack of Evidence

Buffalo, Sept. 13 .- The district attorney here announced publicly yesterday afternoon that he had no evidence against Emma Goldman, and that unless something turned up, no requisition upon the state of Illinois would be made for her. This does not mean that the bottom has dropped out of the conspiracy theory. It simply means that no evidence has yet been secured to connect her with the crime. If she is re-leased she will be kept under the closest records, his pulse should be 96. The surveillance, and it will be easy for the her if she is wanted later.

Washington, Sept. 13.-Within three hours from the time of convening the ber of the court and was excused from further duty. Three witnesses were brought forward in support of this challenge. namely, Francis S. Frost, William E. Spon, and Foster Nicholls. They gave very positive testimony as to expressions they had heard Admiral Howison make, favorabe to Admiral Sampson and unfavorable to Admiral Schley. Mr. Frost testified to a statement Admiral Howison had made to him at Boston while the witness was seeking news as a reporter; Mr. Spon to remarks made while he and the admiral were journeying back to this country from Europe on a trans-Atlantic steamer, and Mr.

Nicholls a conversation occurring during a business call at Admiral Howison's private residence at Yonkers, N. Y. On concluding this testimony, the question arose whether Admiral Howison would join issue with the statements made by witnesses, or would rest on his ident. For hours the president failed privilege to withhold any answer until he chose to submit it. The admiral met the issue by turning at once to Admiral Dewey and announcing that he would make a writ of rejoiner to the statements of the three witnesses. This reto the depression that existed, but just joiner he prepared very speedily. While circles in France were now devoting conceding the accuracy of some points came. He had two operations of the in the evidence, it threw considerable doubt on other points and disclaimed

any recollection of the talks said to have taken place on the trans-Atlantic steamer. It was not sufficient, however, to counteract the very direct testimony given by the three witnesses, and, moreover, the admiral himself, in concluding had no desire to remain on the court and was there simply in obedience to orders. Other in the mixing house, He even appealed to his associates on the court to decide all doubtful questions as to his eligibility in favor of Ad-

Before submitting the challenge to the determination of the court Mr. Raynor cross-examined Admiral Howison very minutely as to his personal sentiments towards Admiral Sampson and Admiral Schley, and developed that Admiral Howison had expressed certain definite convictions as to Admiral Sampson's retention of authority and responsibility, from the fleet at Santiago.

BECOMING UNRULY Strikers Making It Warm For Non-

Union Men at Pittsburg Pittsburg, Sept. 13.-The air was again full of rumors yesterday that the strike had been settled. The absence of President Shaffer from Amalgamated headquarters all day up to 4 p. m. lent color to the report. When Shaffer finally appeared at headquarters he dispelled all hopes by saying there was no change in the situation.

Immediately after arriving at the office Mr. Shaffer called the National officers to his room for a conference which lasted 40 minutes. It was impossible to learn what the talk was about, as none of the party would talk.

With drawn revolvers, two officers, one a coal and iron policeman, the other said to be a regular officer on the South Side force, sat on the top seat of a cab court of inquiry yesterday it was an- and guarded six non-union workmen nounced that Rear Admiral Howison into the Monongahela Tin Plate plant was disqualified from serving as a mem on the South Side yesterday afternoon. A great crowd of strikers and sympathizers pursued the cab to and from the mill, and when the return trip was begun both officers once more drew their guns, and one shot was fired from the cab. No one was hit.

The streets in the vicinity of the Monongahela plant are now virtually in a state of siege. By a system of signals and picketing the strikers of the Monongahela plant are able to mobilize a great crowd on very short notice. This was worked yesterday to perfection. Up to 3 o'clock the streets about the plant were comparatively deserted, but when the word was passed that a cab was en route to the mill with six non-union men, the streets became black with people in a few minutes. When the rig made its appearance with the armed guard aboard, pandemonium nissles were thrown. The horses were missiles were throkn. The horses were whipped into a gallop, and the mill was reached without serious damage havng been done.

When the cab started on its return journey the former proceedings were repeated. At the corner of Carson and tempted to catch the horses by the brifired. Great confusion followed, and trouble.

Over 8000 employes of the National Tube works are without any hope of aid. Strike leaders attribute Shaffer's failure to keep his promise to treat Amalgamated and Federation men alike, to Gompers' refusal to call out all allied trades. The explanation is not satisfactory and there is much kicking, especially among the foreigners who struck with the promise of aid as an in-

Holding His Own.

Buffalo, 1 Polit. The President has rallied somewhat from his heart failure, but returns are feared. Although he has rallied somewhat all physicians realize to live, as his life hangs by a thread. All the physicians will in the most innocently written item say is, that he is holding his own.

### Capt. Hultman Monument.

One of the most unique as well as handsome monuments at Mt. Wollaston memory of the late Captain Eugene N. Hultman. The memorial, which was cut by McGilvray & Jones, is of medium Quincy granite, and consists of a massive boulder. On the face in bas relief is a large anchor and rope, while across the bottom in large block letters is the name Hultman.

The solidness of the monument such that it attracts immediate attention of all visitors to the cemetery. It was erected by the family of Capt.

The Metropolitan water main on Adams street near Beale street is being changed from the south to the north side of the street. This was made necessary by the opening of the sewer trench on the south side of the street. Granite avenue near its junction with Adams street was a good hard treet, but since the clay taken from the sewer trench has been dumped on the street, it is anything but good. Every time it rains the mud is several inches deep.

### Sour Grapes.

One of the citizens of Ward Six was een this week nearing his home laden own with a great supply of barbed vire. When asked to what use he inended to put the bundle, he waved his ree hand toward a fair sized grape aror, which lay temptingly near the sidewalk. The fruit was plentiful, though uninvitingly green and when the questioner remarked on this fact the citizen answered: "If put the wire up now while the fruit isn't ripe, very time that friend of gardens, the 'small boy' goes by, he will look at he fence first, and the grapes afterward. By the time harvest comes, the nimself to grape vines less obstructed from his yearning fingers." The citizen believed that inasmuch as "a stitch in time saves nine," so a little crape, will save the grape, for it is aid barbed wire is not smooth.

"Yes, certainly, I operated on the president," said Dr. Matthew D. Mann. "Dr. Mann used the knife," said Dr. Herman Mynter. "He has performed probably a thousand operations of this kind, while I have had half that number. It was proper that it should be he who used the knife, but that was no more important than other parts of the operation."

"The operation performed by Dr Mann marked the epoch of the centur, in surgery," said Dr. McBurney.

It may be stated as a fact beyon the possibility of doubt that it was Dr. Matthew D. Mann who handled th knife and had chief charge of the operation. Valuable details of the operation were told of by Dr. Mynter who said:

### REMOVAL OF PRESIDENT. Special Hospital Train Is Reing

Prepared.

The dispatches received at Wasnington recently from Buffalo relieved the popular anxiety over the condition of the president, and, while recognizing that there is still reason for apprehension, the people have settled down to the belief that the president will recover, says the Philadelphia Public Ledger. Once the crucial point is passed it is the opinion of expert practitioners that the work of repair will progress rapidly and that in a comparatively short time the president will be strong enough to sustain a journey to Washington.

There are intimations that already the Pennsylvania railroad, with characteristic foresight, liberality and patriotism, is preparing a special hospital train in which the president may be brought to Washington whenever the physicians shall decide upon his removal without the slightest discomfort New England Telephone to the wounded man. World's Swimming Record Broken. Howard F. Brewer of San Francisco recently defeated Wilbur Kyle of San Diego, Cal., in a three-quarters of a mile swimming race, says the New York Tribune. Brewer's time was 18m. 1s. and Kyle's 20m. 3s. Both men broke the world's record of 21 minutes, held by Schafer of the Un versity of Pennsylvania.

Condition of Siberian Railway. How far the Siberian railway is from completion appears from the fact that one still needs thirty days to cover the distance from Paris to Vladivostok, whereas twenty only would be required if the railway were finished. Lake and river steamers (in winter sleighs) are still needed to fill out the gaps.

# PRESIDENT DE LA DEL LA DEL LA DEL LA DEL LA DELLA DELL

Buffalo, 9 A. M.--Vice President Roosevelt has not arrived as yet. As soon as he arrives the oath of office as President will probably be administered to him.

Buffalo, 9.30 A. M. The members of the President's cabinet will meet at 10 o'clock in a house adjoining the Milburn house to consider arrangements for their dead Chief's funeral. Before the meeting the general opinion of the members was that the body would be removed to Washington on Monday and after lying in state for several days would be taken to Canton for burial. The wishes of Mrs. McKinley, however, will govern.

Buffalo, 10 A. M.—An autopsy will be performed on the President at the Milburn house at noon to determine the direct cause of his death.

again and again.

Though the town of Canton is most intimately associated with the name of McKinley, it was not his birthplace. He was born in Niles.

He was born in Alies.

The old inhabitants of that quaint little village claim to remember him, but their memories are vague, for he was only a boy when the family moved to Poland, Mahoning county, O. His people were not rich then, neither were they very poor.

they very poor.
Young William was sent to the village school at Niles, but his father felt that better educational advantages for the children could be secured elsewhere. Accordingly he moved to Poland, and the future president was sent to what was known as the "acad-

emy" in that town.

He stood well among his school fellows in all his studies, but his work in the debating society seemed to give an early hint of the eloquent oratorical

powers which later enabled him to sway multitudes with even more ease than at that time he swayed the school fellows who gathered to hear the debates.

At the early age of 16 he left the Poland academy for Alleghany college in Meadville, Pa. Here, however, a sudden illness forced him to give up his studies and to return home. On top of this misfortune came what practically amounted to the business failure of his father. Everything was not

lost, but the family was so reduced in circumstances that it was impracticable to send William back to college.

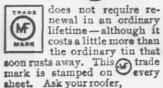

He was still little more than a boy, but, anxious to do all in his power to aid in the support of his family, he took a position as district school teacher, with the munificent salary of \$25 a month.

On what President Hayes had called the bloodiest day of the whole warthe 17th of September, 1862, in the battle of Antietam-Sergeant McKinley's conduct was such that his commander in person recommended his promotion. Under the hottest fire, with men ly-

Major Hayes noticed the young man with admiring eyes. While recovering from his wounds he called upon Governor Tod of Ohio and told him of the incident. The governor immediately ordered the promotion of Sergeant Mc-Kinley and ordered further that the promotion should be placed upon the roster of the company.

This led to his nomination as governor of Ohio, and his next step was to the White House. Had McKinley been successful in his candidacy for the speakership, and had he appointed Reed chairman of the committee on ways and means, in all probability he never would have been president.

But McKinley kept to his work. He had no false notions of luck. In one of his addresses to young men he said. "Luck will not last." The president held that

Is he whose earnest purpose never swerves, Whose slightest action or inaction serves.

The one great aim.

So this brace of temporary setbacks that he experienced merely afforded him time and space in which to get a fresh hold on the lines of his destiny. In 1884 he was a delegate at large from Ohio to the national convention, and helped to nominate James G. Blaine. At the next national convention he represented the state in the same manner, and supported John Sherman, At that convention, after the first day's balloting, the indications were that McKinley himself might be nominated. Then his strength of purpose and his high ideas of loyalty and honor showed themselves, for in an earnest and stirring speech he demanded that no votes be cast for him.

In 1891 he was elected governor of Ohio by a majority of about 21,000 over ex-Governor James E. Campbell, then at stake was chiefly the tariff, and exclaimed, with much expression:

As a maxim maker the president gained fame, and searchers of history have declared that monarchies and aristocracies have produced few maxim makers, this form of thought and expression having flourished most during periods of popular government. One of the first maxims put forth by McKinley in his first campaign against Bryan was, "It is better to open the mills than to open the mints."

The president once sought to win acceptance of his policy of confidence and hope by saying, "A patriot makes a better citizen than a pessimist." -To indicate his confidence in the course that he was steering the ship

of state, he declared, "The country is not going backward, but forward." For younger men McKinley gave voice to this oracular saying: "Luck will not last. It may help you once, but you cannot count upon it. Labor is the only key to opportunity."

HIS HOME LIFE.

When Major McKinley first went to Canton to consult his sister on the choice of a profession, he met Miss Ida Saxton, the pretty daughter of James Saxton, a well to do banker of Canton. He was young and good looking; she was sweet sixteen. The acquaintanceship was of short duration, for he had received 182 votes. He himself was a to go to Albany to study law and she strong supporter of President Har. had to return to school, but the first thing that he did on his return to Canton as a full fledged lawyer was to

Since the assassin that grand moral strength the birth of the second child Mrs. Mc-Kinley has been an invalid, but yet a happy and contented one, for the devotion of her husband was untiring. She followed his political career closely, and often he was indebted to her for valuable advice. One of the president's most strongly marked traits was his devotion to his herein designated mother and to his wife.

While his mother was alive he scarcely allowed a day to pass without sending her some message to let her know that all was well with him. His solicitude for his invalid wife was equally touching. He even went so far at times when she was suffering more than usual to attend to some of the little details of the household management in order to relieve her as much as possible from the strain and anxiety of such duties. Very frequently during the time he was at the White House, even when some important conference was being held, he would excuse himself and run up stairs to spend a few moments with the invalid woman who was so thoroughly in a property of the ward, may be filed with the secretaries of the several ward committees at 7.30 o'clock P. The telephone wires were kept busy b people making anxious inquiries, but all the information that could be obtained was that he was sinking fast and hourly growing weaker.

Chief Engineer Williams had arranged that in case of the President's death his age should be slowly sounded or the fire alarm circuits, no matter at what hour it occurred. The almos tolling of the bells and the mourning of the whistles that awoke the stillness of the night at 2.40 this morning told only too truly the story of the Presi-

It is God's way. His will be done" were read, there were few dry eyes. There was again brought to mind as was at the death of President Garfield. "Man's inhumanity to man, makes countless thousands mourn."

Flags on City Hall, the school buildings and many private residences were placed at half-mast and will remain so until after the precious remains shall have been consigned to mother earth.

Mayor Hall when seen this morning as to whether he should call a special meeting of the City Council to take action on the death of President McKinley said that he had at first thought of calling a special meeting for next Monday evening but after a consultation with President Bryant of the City Council it had been decided not to call a meeting just at present, but probably one would be called for some night next week.

Piano buyers as a rule pay a great deal more for a piano than there is any need of.

It's not their fault, because in the great majority of cases they depend too much upon what some one else tells them.

Now for \$250.00 we sell you a first class Upright Piano, as good as your neighbor has paid from \$100.00 to \$150.00 more for.

We sell pianos on the small margin plan. Every piano guaranteed for seven years.

No need of paying fancy prices if you buy your piano here.

New Pianos for \$25.00 down and \$2.00 per week until paid. Pianos to rent.

I'd ruther law out here among the trees, With the singin birds and bumblebees, A-knowin that I can do as I please, Than to live what folks call a life of ease

For I really don't 'xactly understan' Where the comfort is for any man In walkin hot bricks and usin a fan And enjoyin himself as he says he can, Up that in the city.

It's kinder lonesome, mebbe vou'll sav. A-livin out here day after day In this kinder easy, careless way, But an hour out here's better'n a day Up thar in the city.

As for that, just look at the flowers aroun' A-peepin their heads up all over the groun', And the fruit a-bendin the trees way down; You don't find sech things as these in town, Or, ruther, in the city.

As I said afore, sech things as these— The flowers, the birds and the bum'lbees And a livin out here among the trees, Where you can take your ease and do's you

When Captain Jabez Bebee of Marblehead launched his new brig, he named her the Jane Bebee, after his wife, who had salled with him for many a voyage and was almost as good a sailor as he was. The first voyage of the brig was to a certain South American country ruled by a dictator, who carried things with a high hand for five or six years and got away with a lump of money just in time to avoid the revolution that his corrupt practices had evoked. The craft arrived after a fine run and was waiting to haul in to the wharf when an official came aboard and demanded a bonus of \$1,000 for permission to land cargo. This was in addition to port charges and customs dues and was directly from Don Castro. It was blackmail, pure and simple, and Aunt Jane, as the captain's wife was generally called, looked at it in a proper light and said to her hus-

"Jabez Bebee, we won't pay it, and you tell him so straight from the shoulder. No, not a blessed penny. They are just trying to bluff us, and we won't submit. You just run up the American flag, set the hands to whistling 'Yankee Doodle' and let this here don know that the American eagle is roosting on the cap of the mainmast."

The captain braced up and became defiant, and Don Castro's messenger was sent away with a flea in his ear. It was the general opinion that the dictator would wilt, but the brig was held at anchor in the harbor for 48 hours on

one pretense or another and was for bidden to either haul into the wharf or sail for another port. Then Jabez Bebee went ashore prepared to assert and maintain that the government represented by the eagle would stand no trifling with one of its representative citizens, especially one hailing from Marblehead and in command of a new brig which had logged off seven knots an hour with her yards checked in. He had his thunder duly prepared and his lightning handy by, but he struck a snag almost at once. Don Castro was a man who would not have hesitated to bluff the combined powers of the world if there had been \$500 in sight for him. The wily old rascal also thoroughly understood statecraft and the number of years that would slip by while an offended government was making an official investigation into any of his acts, official or private. He would be out of it long before the state department at Washington got a move on, and he wasn't worrying as to what might happen to his successor.

"Pay me a thousand dollars and you can discharge cargo," was his answer to Captain Bebee.

Then the captain of the Jane Bebee turned the American eagle loose and encouraged the bird to make things redhot, but when he had finished and was wiping the perspiration from his brow the dictator threw one leg over the arm of his chair and calmly re-

Emma Goldman, the queen of anarchy, who has just been arrested, first came into prominence in New York during the bread riots of the spring and summer of 1893 growing out of the cloakmakers' strike, says the New York World. Since then she has been the most reckless of all the incendiary speechmakers in the ranks of the anarchists in the United States. The character of the woman and her doctrines is best shown by her speeches. In these she has repeatedly said:

"I do not believe in God. "When I die, I would rather go to hell than to heaven. All tyrants go to heaven.

"I am against all laws.

"The marriage relation is a sham." When the anarchist Michael Angelo Golli assassinated Prime Minister Canovas of Spain, New York anarchists held a meeting in Clarendon hall, and Emma Goldman was the chief

"I have known William McKinley since he was a youngster, and he won a horse race for me at Youngstown, O., to win.

"The boy was willing enough, but be fore he would consent he went to secure his father's permission. His father said the boy could do as he pleased, and he decided to try it. Well, the long and short of it was that McKinley won the race, and his luck seems to have stayed with him, for, so far as I can see, he has won every race he ever entered.'

Many Eager to Accompany McKinley. Many in the Buffalo club the other night said they would mortgage their homes, if necessary, if they could be permitted to return on the train which at the proper time will bear President McKinley to Washington, says a Buffalo dispatch to the New York Sun. These folks told in fancy of the thunderous ovation the president will receive and pictured the stupendous outpouring of the people all along the line to greet the only president to escape the assassin's bullet.

### Pres dent's Last Moments

Before 6 o' clock last night it was clear to those at the president's bedside that he was dying, and preparations were made for the last farewell from those who were dearest to him. Oxygen had been administered steadily, but with little effect. The president came out of one period of unconsciousness only to relapse into another.

But in this period, when his mind was partially clear, occurred a series of events of profoundly touching character. Down stairs, with strained and tear-stained faces, members of the cabinet were grouped in anxious waiting. They knew the end was near, and that Buffalo, Sept. 14.-President McKin-, the time had come when they must see him for the last time on earth. This was about 6 o'clock.

Despite the fact that vitality continued to ebb as midnight approached, no efforts were spared to keep the spark of life glowing. Dr. Janeway of New York city arrived at the Buffalo depot at 11:40 o'clock. George Urban was waiting for him, and they drove at a break-neck pace to the Milburn house. He was shown to the president's room at once, and began an examination of the almost inanimate form.

Secretary Long arrived at the Milburn house at 12:06 o'clock. This was his first visit to the city, and he had the extreme satisfaction of seeing the president alive, even though he was not lutely no shade of regret or pity showed conscious of his visitor's presence. ### Latest Musical Publications.

Everyone has heard of or seen the detightful play, with its scenes of rural life, entitled "Lovers Lane." It is on the beautiful story of this play that Max S. Witt and Robt. F. Roden's latest ballad, "It's A Long Lane That Has No Turning," is founded. Otto Langey, the composer of the celebrated "Mandolina" Mexican serenade, has just written a beautiful new serenade called "Verona" Every music lover should have it. All those music lovers to whom the beautiful ballad "In The House Of Too Much Trouble" appealed strongly, will be delighted with "A Little Empty Nest," the latest by the same authors. "Don't Butt In" is the odd title of a new coon song, which is a big hit with Lew Dockstader, the famous minstrel, this season. It is by Johnson, Cole & Johnson the writers of May Irwin's hits last season. The new book, "The Puppet Crown," is the latest craze this year, and Mary Dowing Sutton's hits. George Primrose, the popular minstrel, is singing a new coon song, "When The Jack O'Lantern Starts To Walk About" in his show. It is a splendid success for him. The above publications are issued this month by Jos. W. agents for the celebrated Hawkes Sonorous Band Instruments and the Beare "Majestic" Stringed Instruments. ### Keith's Theatre.

Through no fault of the management the big spectacular production scheduled for presenta-327 62 tion at Keith's on Monday next, has to be postponed for one week, owing to the failuse of the 122 32 artists engaged in painting the special scenery to complete their work in time, but it is announced that it will positively be given the week commencing Monday, Sept. 23. For next week an "all variety" bill of the highest class has been put together, some of the most noted omedians, specialists and musicians in the vaudeville being named on the programme The big laughing act of the show will be pre sented by the well known and popular Elinore Sisters, supported by Harry Mayo. It is a far cical sketch entitled "Adventures of Bridget McGuire," and it is said to be the limit as laugh producer. Kate Elinore is said to have a part that discounts anything in which she has hitherto been seen, and if that is so those who remember the clever grotesque comedian will not need to be told that there must be laughs galore in the farce. Several new and interest ing motion pictures made in this country and abroad, will be shown by the biograph, which continues to be one of the strong features of the weekly show.

Of Services Over Martyred President

Nothing but Hymn, Song and Prayer Offered

Body Lying In State

Buffalo, Sept. 16.-Buffalo yesterday became a city of mourners. The gay and flaming decorations of the Pan-American exposition gave way to the symbol of sorrow. The black drapery of the city's streets muffled the tolling bells of the churches. Bits of crepe appeared on every sleeve. The sorrow was apparent everywhere.

In the morning a simple service took place at the residence on Delaware avenue where the martyred president A hymn was sung and prayer was all. Only the immediate family and the friends and political associates of the late president were present. The scene there was pathetic in the extreme. Then the body was borne out of eight sailors and soldiers. The cortege passed through solid wails of humanity, bareheaded and grief-stricken, to the city hall, where the body lay in

The day was gray and cheerless. Heavy clouds hung over the city, at times breaking to let through a rift of sunshine, and then it threatened to let loose a downpour on the gathering multitude. The air was humid and heavy, and only a light wind from the south stirred the drooping flags and the emblems of mourning. The very elements seemed to lend fitting accompaniment to the scene of sorrow about to be enacted. Long before the time set for the funeral services, the vicinity of the

Major General John E. Brooke, who was personally in command of all the forces participating in the escort, arrived at 10 o'clock. He was in fatigue uniform, with service sword at his side. The two gold stars at the collar marked his high military rank. Around his left arm was wound a heavy band of crepe. With him were his aides and a half score of other officers, all in fatigue uniform, with the badge of mourning on their sleeves.

Out: ide the Hous

The time was now approaching for the service. The tramp of the assembling military could be heard and the walks leading up to the Milburn house began to be lined with those who were to assemble about the bier. Even amid the stir of assembling a solemn silence prevailed, and the division of the escort came to their posts with silent bands. At 10:30 o'clock the military and naval Immediately around the corner from the Milburn house. Meantime the members of the cab-

inet, officials high in the government service and near friends of the martyred president, began to fill the walks leading up to the entrance of the Milburn residence. They came separately and in groups, some walking, while those in carriages were admitted within the roped enclosure up to the curb. It was just eight minutes before the

opening of the service when a covered barouche drove up to the house, bringing President Roosevelt and Mr. and Mrs. Wilcox, at whose home he is a guest. The president looked very grave as he alighted. His face did not relax into a smile to the salutations of those nearest the carriage, but he acknowledged the greetings silently, and with an inclination of the head. Word passed up the well-filled walk that the president had arrived, and those waiting to gain entrance fell back, making a narrow lane through which Mr. Roosevelt passed to the house.

As the president passed within the house and the services were about to begin, the long line of sailors and soldiers swung into column of fours into Delaware avenue, and formed in battalion front along the thoroughfare. They stood at parade rest, with colors lowered, each flag wound about its staff with a band of crepe.

In the Hou e of Death Within the house of death was woe the right of the hall as President Rooseface was written the story of the Christian forebearance with which he had met his martyrdom. A look of calm and peaceful resignation was on

nony to the patient suffering he h. d dured. He was dressed as he always did in life. The black frock cont buttoned across the breast where first bullet of the assassin had struc

The black string tie below the standing collar showed the little triangle of while shirt front. The right hand lay a his side. The left was across his body He looked as millions of his country men have seen him, save for one thing The little badge of the Loyal Legion the only decoration he ever wore, and which was always in the left lapel of his coat, was missing. Those who remarked the absence of the embler spoke of it, and, after the body was taken to the city hall, the little badge which he prized through life wa placed again where it had always been.

Two sentries, one from the sea and one from the land, guarded the remains. They stood in the window embrasures behind the head of the casket. A ser geant of infantry to the north, was Thousands Upon Thousands Viewed fully accounted and wore his cap. In the other window was a sailor, in the

loose blue blouse of the navy. The family had taken leave of the loved one before the others arrived. Mrs. McKinley had been led into the chamber by Dr. Rixey, and sat awhil alone with him who had supported an comforted her through all those years of wedded life. Dry-eyed she gazed upon him, and fondled his face. She did not seem to realize that he was dead Then she was led away by Dr. Rixey and taken up to her position at the head of the stairs, where she could hea

The friends and public associates of the dead president all had opportunity to view the remains before the service began. The members of the cabine had taken their leave before the others was offered over the dead body. That arrived. They remained seated beside their dead chief, while the sad proces sion viewed the body. About 100 in al saw the remains. Some were so over come with grief at the sight of the thin placid countenance that their frame to the waiting cortege on the shoulders shook in convulsive sobs. Severa clung to the side of the bier and with difficulty could be persuaded to leave Almost every face was tear-stained.

Hanna Appeared Dejected

Senator Hanna entered the room a this time, but did not approach the cas ket. His face was set like an iron willed man, who would not let down the barriers of his grief. The senator spoke to no one. His eyes were vacant He passed through the throng and seat ed himself behind Governor Odell, sinking far down into his chair, and resting his head upon his hand. During all the service he did not stir.

Just before 11 o'clock Presiden Roosevelt entered. Every one arose and all eyes were turned toward him Milburn house was astir with prepara- He moved forward again with the tide of the procession to his place at the head himself erect, his left hand carrying for ward his silk hat. Those who were coming toward him fell back on either side to let him pass. He paused once or twice to silently shake hands, but there was no smile to accompany his greeting. He, too, like the man deep down in his seat, against the wall, and you as secretary to the president. who had forgotten to rise when the President of the United States entered seemed to be restrained in a great grief

When President Roosevelt reached the head of the line of cabinet officers he kept his face away from the casket but appeared to be steeling himself for a look at the face of the dead. The tension in the room was great. Perhaps it might have been 60 seconds, but it seemed longer. Then the president turned and advanced a step. He bowed his head and looked down at the impassive features of the man whose burden detachments took temporory stations, and responsibility he had taken up Long he gazed, standing immovable, the muscles of his face only betraying the strong emotion under which he labored At last he stepped back.

The pastor was at the door leading could be heard at the head of the stairs. words of "Lead, Kindly Light" were sung by a quartet. It was Presiden McKinley's favorite hymn. Everyon within sound of the music knew it, and as the voices swelled through the house sobs were heard on every side. Presi fro as if his footing was insecure.

The Service

When the singing ended the minister read the eloquent lesson from the funeral service-the 15th chapter of the First Corinthians. All had risen as he began, and remained standing through out the remainder of the service. The reading over, the quartet sang the hymn, "Nearer, My God, to Thee," the first line of which words President Mc-Kinley had repeated at intervals of consciousness during the day before he died. As the music died away, the pas tor began his invocation. All present joined in the Lord's prayer

MANSLAUGHTER CHARGE May Be Preferred Against a Fall

River Youth Fall River, Mass., Sept. 16.-Charles Poitras, proprietor of a shooting gallery, died late yesterday afternoon as a result of a shooting accident which took place Saturday night, and Joseph Mederios, a Pole, 18 years old, who was arrested on the charge of assaulting Poitras with a dangerous weapon, will probably be charged with manslaughter.

Poitras was in his gallery when Mederios walked in and began handling some rifles that were lying on the counsion of Congress-Proclamation Ap- ter. A 22-calibre Winchester repeating rifle was loaded for him, and as he raised it to his shoulder it was discharged, probably accidentally. Just at that moment Poitras crossed the galthe home of Ansley Wilcox, 641 Dela- lery to make change for a customer, and he received the bullet in his body, three inches below the naval. He was taken performed, but he never rallied from its effects.

Poitras was 28 years old, a native of Canada, and had been in Fall River about a month. He was a widower.

Yet the legal forms were carried out and the proper execution of the oath that made Vice President Roosevelt the successor to William McKinley, who had died 13 hours and 24 minutes before. The oath was administered by United States District Judge Hazel, young in years, youthful in appearance and one of the late president.

After Mr. Roosevelt took the oath of office he asked the members of the late president's cabinet to remain, as he desired to see them privately on important business. He asked them all to stay, as well as continuing Mr. Cortel-He also announced that he would con-

tinue the policy laid down by the late president in home and foreign affairs. This in brief is the story of the leading event in the career of Theodore Roosevelt, when he succeeded to the office of president of the American republic

President Roosevelt announces that there will be no extraordinary session of congress. The constitution does not demand it, and, after a discussion with little affection for the son who has made those members of the cabinet at Buffalo, his name a disgrace, and he says that he decided it was not necessary. L'enderly the bearers lowered the casket from their shoulders and committed it to the hearse. The solemn notes of Chopin's funeral dirge succeeded the hymn. The soldiers and sailors swung into long columns, and them took up the 'narch toward the city hall.

President Roosevelt came from the house almost immediately behind the casket, and, arm in arm with Secretary Root, moved through the aisle of people. He entered the first carriage with Mr. Root, and with Attorney General Knox and Postmaster General Smith, who had followed.

The presidential carriage fell in immediately back of the military escort. Following in the second carriage were Secretary Long, Secretary Hitchcock Secretary Wilson and Secretary Cortelyou. Major General Brooke was in the third carriage, and Rev. Dr. Locke and his wife in the fourth. In this order four carriages preceded, bearing the president, members of the cabinet, the representatives of the military branch and the officiating clergymen.

After the four leading carriages there was a clear space of 100 feet, and then came the hearse. At the head of each of the leading horses a police officer walked with a hand at the bridle. On each side of the hearse walked a detachment of soldiers and sailors. Immediately back of the hearse marched a score of grizzled G. A. R. veterans, who had been assigned to this post of

President McKinley had grown greatly in the estimation of his country-men, irrespective of party, since his re-election. Always a progressive man, moving with the people if not trying to lead them, he had developed a capacity for initiative that promised a still larger measure of success for his second term. Mr. Mc-Kinley was valuable as an example and especially dear to the people whom he typed in so many of their best traits and characteristics in his private and domestic life. # A CHALLENGE.

To Settle the Base Ball Championship.

### West Quincy Club Make a Deposit.

South Quincys Asked to Come to Time.

The West Quincy Base Ball club has ssued the following challenge to the south Quincy club to decide the cham-

pionship of the city: To the Editor of the Ledger:

Owing to the unsatisfactory ending of last Saturday's ball game, we hereby challenge the South Quincy base ball team to play next Saturday for \$100 a side. The game to be played on the Merry Mount Park grounds, and the receipts to go the City Hospital after paying expenses. The umpire to be appointed by the Boston Globe, and outh teams to be comprised of the same players that played last Saturday. We hereby deposit \$25.00 with the Editor of the Daily Ledger, and will be at the at the Ledger office Wednesday evening at 8 o'clock, to meet the representative of the South Quincys to make final ar-

West Quincy Base Ball Club, W. P. Hughes, Secretary. Quincy, Sept. 17, 1901.

The City Editor of the Daily Ledger cknowledges the receipt of the \$25 eposit, and will be at the Ledger ffice at the time designated that arrangements may be made for a game if the challenge is accepted.

Great rivalry exists between the two lubs, and it was decided to play three games on Sept. 7, 14 and 21, to decide he base ball championship of the city. Osborne Howes, Jr., of Brookline Two games have been played but both Hon. John R. Thayer of Worcester, were unsatisfactory to all concerned, Hon. Henry F. Naphen of Boston, Hon. s it was thought the umpires were Joseph A. Conry of Boston, Hon. not entirely unbiased. The first was Samuel Roads of Marblehead, Hon. decided in favor of the West Quincys John W. Coughlin of Fall River, Hon and the second in favor of the South John C. Crosby of Pittsfield, Hon. Quincys.

As the net receipts will go to the John P. Sweeney of Lawrence. city Hospital, which is in need of an additional income, and a hot game is anticipated, there should be a very large attendance if a game is arranged.

### Again Desecrated.

One of the beautiful beds of coleus that has been such an ornament to the Wollaston school has been desecrated by some malicious person. Never be fore has the school yard looked so at tractive as at this season. It must be discouraging to the pupils who were so interested in contributing the money for the flowers and for the janitor who has so faithfully cared for them. Per Randolph. haps the person or persons who so ruth lessly destroyed the beautiful vines over the entrance of the Unitarian church may have had a hand in it. One would hardly look for such vandalism in a community like Wollaston.

### Nation's Farewell to Dead President

Thousands Viewed Body as It Lay In State

State Funeral Attended by Representatives of Whole World

Washington, Sept. 18 .- All that is mortal of William McKinley is speeding to its last earthly resting place at Canton. Officially and with state ceremony the nation has paid its tribute to the memory of its stricken chief magistrate. It was almost the closing act in the awful tragedy when, beneath the dome of the Capitol, funeral services of state were held yesterday over the remains of the dead president. As befitted the occasion and character of the man, the ervices at the Capitol were simple. They were conducteed in accordance with the rites of the Methodist Episco pal church, of which President McKinley was a life-long member. Consisting only of two hymns, a song, a prayer, an address and a benediction, they were very beautiful and solemnly impressive.

CATAFALOUE IN CAPITOL ROTUNDA.

Gathered around the bier were repre sentatives of every phase of American national life, including the president and the only surviving ex-President of the United States, together with representatives at the Capitol of almost every

Despite the fact that no attempt had been made to decorate the interior of the rotunda, beyond the arrangements made about the catafalque, the assemblage presented a memorable sight. The sombre black of the attire of hundreds of civilians present was splashed brilliantly with the blue and gold of the representatives of the army and navy and the court dress of the diplomatic corps

As the notes of McKinley's favorite hymn, "Lead, Kindly Light," floated through the great rotunda, the assemblage rose to its feet. At the conclusion of the hymn as Rev. Dr. Naylor, presiding elder of the Washington district, rose to offer prayer, the hush that fell upon the people was profound. When, in conclusion, he repeated the Lord's Prayer, the great audience joined solemnly with him. The hymn "Sometime We'll Understand," was sung by Mrs. Thomas C. Noyes of this city, and the beautiful refrain was echoed and reechoed by the double quartette choir. The venerable Bishop Andrews of Ohio, the oldest bishop of the Methodist Episcopal church, then took his position at the head of the bier and began his eulogy of the life and works of William McKinley. His tribute to the Christian fortitude of the dead president was impressive. Upon the conclusion of the sermon, the audience joined the choir in singing "Nearer, My God, to

In conclusion the Divine blessing was asked by Rev. W. H. Chapman, acting pastor of the Metropolitan M. E. church, apon both the living and the dead.

Mrs. McKinley did not attend the services at the Capitol. It was deemed wise that she should not undergo the ordeal. She remained at the White the casket. House, comforted by every attention that loving thoughtfulness could sug- forever to the view of Washington peo-

> From Wh.te House to Capitol Both sides of Pennsylvania avenue, from the White House to the Capitol, were massed, and as the funeral cortege passed down the broad throughfare to the solemp rates of "Dead March," tearstained faces bespoke grief more eloquently than words. With aching hearts all remembered that only a few months ago President McKinley had passed along the same throughfare to

flags that had fluttered greeting to him in March were furled and crepe-bedecked in September. The cheers of spring became the sobs of autumn. Grief had usurped the place of joy.

As the procession moved down the avenue, the people recognized in the long line of distinguished mourners their former president, Grover Cleve land, who had come to pay his tribute to his successor. They recognized, too, their new president, upon whom the responsibilities of chief executive had been thrust so unexpectedly.

Among the hundreds of other distinguished persons who were in attendance upon the funeral services were Governor Gregory of Rhode Island, Governor Yates of Illinois, Governor Hill of Main. Governor Crane of Mas sachusetts, Governor Aycock of North Carolina, Governor White of West Virginia, Governor Stickney of Vermont and Governor Voorhees of New Jersey. Colonel Stone represented the Governor of California and Colonel Kaufman of Charleston represented Governor Mc Sweeney of South Carolina. The dip-Nation and state, military and naval, and many civic organizations had officers in attendance

At the conclusion of the funeral ser vices in the rotunda the casket lid was emoved in order that the immediate friends of the dead president might be afforded the comfort of a last glance at his features and that the people might pass the bier for the same purpose.

### The Public Admitted As soon as the rotunda was cleared

of those who had been invited to attend the religious services, the bier was prepared for the inspection of the general public. The floral offerings which cov ered the coffin were put aside and the lid was lifted from the head of the coffin. As the coffin rested upon the catafalque it was just about high enough to permit of easy inspection by adults. The crowd entered through the east main door of the Capitol and passed out through the west exit. The people came in double file, one line passing to the right and the other to the left of the casket. Only a hurried glance was permitted to any one, as if was announced that the ceremony would close promptly at 6:30 o'clock. Whenever there was an attempt to linger, especially over the casket, as there was in many instances, the person making it was admonished by the Capitol police to "pass on." When they still remained they were pushed along. In this way about 130 people were enabled to view the remains every minute.

As the body of the dead president lay in state, it was guarded by representatives of all branches of the nation's martial service. Directly at the head of the casket stood a marine, who faced another at the foot. On either side of these two sentries the crowd passed. On either side of the marine at the head stood an artilleryman, while the marine at the foot of the casket was flanked by seamen. Other artillerymen, seamen and marines formed a lane through which the people passed. Back of them, on either side, was a line of floral The whole scene was photographed

scores of times. Apparently the throng was in an apprehensive state of mind, for every time a flashlight picture was taken, pitcous screams were heard from the people about the entrance.

At 12:30 the crowds began to file through and during the six hours in which the body was lying in state, it is estimated that 55,000 people passed

pieces, and making the most remarkabl floral tribute ever seen here, were taken to the station from the Capitol in can riages and wagons and there placed on a special car. Three sections, com prising in all 20 passenger coaches were necessary to accommodate all those who accepted invitations to make the journey to Canton.

### A Terrible Crush

Just a 1 o'clock a frightful calamity was narrowly averted at the east front of the Capitol. For hours the vast throng of people had been massed in front of the Capitol awaiting an opportunity to euter the rotunda. When the doors were opened tens of thousands of people rushed almost frantically to the main entrance. The police and military guards were swept aside and almost in a twinkling there was a tremendous crush at the foot of the great staircase.

The immense throng swept backward and forward like the surging of a mighty sea. Women and children, a few of the latter babes in arms, were caught in the crowd and many were badly hurt. Strong men held children and even women high above the heads of the crowd to protect them from bodily

the cooler heads in the throng, approximately 100 people were injured. Some of the more seriously hurt were carried into the rotunda and into various ad-Joining apartments of the Capitol, where first aid treatment was given them. A number were hurried to hos pitals in ambulances, but the majority either were taken to or subsequently went, unassisted, to their homes,

After the crush had been abated, upon the staircase and plaza immediately in front of it, were found tattered pieces of men's and women's wearing apparel of all kinds, crushed hats, gloves and even shoes. Watches, pocket books, keys and knives were picked up.

### Remains Leave For Canton

The last chapter of the sad ceremony, the removal of the body of the late president to its resting place at his old ome at Canton, began at 8:20 o'clock last night, when the funeral train lef here over the Pennsylvania railroad. The great bronze doors of the Capitol

where the body had lain in state, had closed while thousands of people were

still waiting to get a last glance at the casket. The guards at the Capitol were permitted a hurried look at the face of the dead president; the cover of the casket was screwed down by the under takers: it was lifted once more upon the shoulders of the body-bearers, and by them borne to the hearse at the foot of the east steps of the Capitol.

Thirty minutes' time was required for the removal of the body from the Capitol to the train. The route was down Pennsylvania avenue, which was lined on either side by troops of the Distric of Columbia. It was a quiet, noiseles journey. Notwithstanding the chilly air and the light mist, hats were uniformly removed as the cortege passed through the silent throngs that lined the avenue At the Pennsylvania railroad station, where there was a dense mass of people

the body was received by large delega tions of army and naval officers. There the soldiers and seamen carried the casket from the hearse to the observation car, and placed in the second section of the funeral train. The casket was placed on standards draped with the national colors and was covered with floral emblems.

It was 8:10 o'clock when this section steamed away, the first section having preceded it 10 minutes. The observa tion car bearing the body was flooded with light. Through its crystal side everything could be seen, so arranged that, as the train swept through the night, the casket, with a soldier standng at the head and a sailor at the foot, ould be plainly seen.

Ten minutes later, the third section of the train, bearing the army and navy officers sped away, and the national capital had performed its part in the funeral ceremonies. Dispatches from all along the route

of the funeral train say that after leaving Washington all was darkness. The train seemed to be running through a tunnel, so black was the night. Faces of mournful groups, bare-headed at the side of the train, could be seen as the train flashed by, and as villages were passed, the sound of tolling bells came faintly out of the gloom. At the large.

Hon. John O. Hall, Mayor of Quincy, issued the following proclamation OFFICE HOURS-Until 9 A.M., 2 to 4 and H, 12th Mass., and was mustered out on Tuesday, which is self-explanatory. The hearts of Quincy people are as first lieutenant. He leaves a widow, deeply touched by the death of their "Well Beloved President," and will generally be glad of the opportunity to show their respect to McKinley.

· CITY OF QUINCY,

MAYOR'S OFFICE, QUINCY, MASS., SEPT. 17, 1901.

Again we are called to mourn an esteemed and beloved President whose Notary Public had no reason for regretting it." She life has been taken by an assassin, and the Nation is bowed under the shadow

At the entrance of a pathway which promised to lead to wonderful results for the glory of this nation and the welfare of mankind, and crowned with the laurel wreath for conspicuous service already rendered, he was stricken down by the hand of a coward and a traitor.

In this sad hour it is fitting that we should pay our tribute of love and respect to his gracious kindly character as a christian statesman and a wise ruler. Agreeably to the proclamation of the chief magistrate of the Nation and of the Commonwealth of Massachusetts, I invite you

TO SUSPEND ALL BUSINESS ON THURSDAY NEXT and to assemble in the Stone Temple, that place made sacred by so many asso-

ciations, at 2 o'clock in the afternoon, that while loving hands are laying the loved form of President McKinley in the grave, we may join with the peoples of all christian lands in doing honor to his character and accomplishments. By my direction, City Hall will be closed for the entire day and all work

in the city departments will be suspended. I earnestly desire that the members of the City Government, heads of departments and all Officials of the City be present and occupy seats assigned to

Very Respectfully, JOHN O. HALL, Mayor.

Last week it was the West Quincy team who did the kicking, over a very trifling matter, consequently he overlooked that. Saturday there were only two interruptions; the final one and the other when Birnie was called out

The final interruption was caused as your article states "by a close decision ence: on a hit along the foul line." Later on, it says it was a "rank decision," which seems to me is a rather broad way to put it. Your correspondent also says the score was 5 to 3 in favor of West Quincy but did he not notice that South Quincy had scored one run

and had two men on bases when the 'rank decision'' was given. And now a word more and I will lose. In regard to the West Quincys making no attempt to field the ball

### THE DECORATIONS.

### Music to be a Feature of Memorial City Hall the Most Elaborate Decorated Building.

President, William McKinley, will be with the work of draping City Hall, neld in the Congregational church, but it was completed today. On the Wollaston, Thursday at 2 o'clock. The front of the hall, over the entrance, is a large framed picture of President Requiem McKinley, the frame being of black Fleming and white crepe. Over this is a panel with a black border, on which are the words "Good-by all, Good-by." The pillars on the front are covered with black and tied in place with white bows. From the apex broad streamers run to the front corner. On the side toward Depot street is a broad streamer at the top, running the entire length, on which are festoons of white. In

the centre is a picture of President McKinley, similar to that on the front of the building and on either side of this are panels reading "It is God's Way," and "His Will be Done." The panels and pictures are also festooned with black and white. The decoration

### STUBBORN DEMEANOR

Czolgosz Uttered Not a Sound During Arraignment

EVEN REFUSED TO PLEAD

Counsel Informally Enters a Plea of Not Guilty and Asks Permission te Reserve Right to Withdraw It-Question of Insanity May Come Up

Buffalo, Sept. 18.-Leon F. Czolgosz was arraigned before Judge Emery in the county court yesterday afternoon on the indictment for murder in the first degree in fatally shooting President McKinley on Sept. 6. Again the prisoner refused to plead, or even to utter a word or sound, and Loran L Lewis, ex-supreme court justice, entered a plea of not guilty. The accused will be tried in the supreme court next Mon-

Absolutely no demonstration having been made against the prisoner on Monday, the authorities decided that the strong guard was unnecessary yesterday. Czolgosz was taken from the jail through the tunnel under Delaware avenue to the city hall by Detectives Solomon and Geary, being handcuffed to the latter.

Going from the basement of the city hall to the court room on the second floor, Czolgosz was compelled to pass close to the black and white bunting with which the interior of the city hall was draped. These apparently made not the slightest impression on the prisoner, and he gave no more heed to them than he did to the questions of the court or the district attorney. The pris oner entered the court room at 3 o'clock As soon as the handcuff's were removed from the prisoner, District Attorney Penney began the formal arraignment and asked: "How do you plead, guilty or not guilty?

Not a sound was uttered by the prisoner. He stood mute. His curly hair was dishevelled, and although his linen was white and clean, his disordered clothes and the growth of his beard gave him an unkempt appearance. Although his demeanor was still one of stubbornness, he gave a little more evidence of concern than upon his first presence in court. When questions were being asked him rapidly, he he appearance of stolid indifference,

When the prisoner refused to plead, the district attorney told him that he first degree, and that he could answer osz glanced at Mr. Penney, and it was hought that he intended to speak, but

Judge Lewis then addressed the court, saying that he had called upon the de fendant, but had been unable to ascer in any wish on the defendant's par as to the employment of counsel. He said that his associate, Judge Titus, was in Milwaukee, but that he had appeared informally to enter a plea of not guilty on behalf of the defendant, as the

Counsel asked permission to reserve the right to withdraw the plea and enter a special plea or interpose a demurrer. Counsel expressed regret that his name had been mentioned in connection with the trial, as he had been out of practice for some considerable time, and had a very strong repugnance to appearing.

District Attorney Penney gave notice that he would move to have the indict ment transferred to the supreme court for trial, and would ask that the trial be set for next Monday.

"I know of no reason why the defendant should not be ready next Monday," replied Judge Lewis. Judge Lewis said that he might also like an order of the court for alienists to examine the prisoner, as the district attorney had informed him that eminent alienists had examined the prisoner of behalf of the people. This gave rise to the belief that a special plea of in-

for the defense. "Remove the prisoner," said Judge Emery, and Czolgosz was taken back to jail by the underground route.

### EVERY PRECAUTION Being Taken to Guard the Czar's Life

While Visiting In France Dunkirk, Sept. 18.—The preliminary visit have passed without any untoward incident. The weather, however, has

been atrocious.

The most striking feature of yesterday's journey consisted of a full dress rehearsal of the military precautions on a portion of the railroad which Emperor Nicholas will traverse this afternoon, between Donai and Dunkirk. The track was guarded on each side by soldiers stationed with fixed bayonets at intervals of 250 yards in sparsely populated districts. Every station was gar risoned with troops. Every level cross ing, even in the open country, was cor doned by the military.

In the midst of fields, sometimes without a solitary habitation in sight, there stood motionless a soldier in full war equipment, drenched to the skin, closely watching the approaches to the track until the train whizzed by, when, machine-like, he brought his rifle to "sa-

Wishes to Be Guided by Their Counsel Throughout His Entire Term-Policy Outlined In the President's Last Speech Will Be Followed

Washington, Sept. 18.-President Roosevelt yesterday afternoon convened his first cabinet meeting held in Wash ington. At this meeting the president asked the members of Mr. McKinley's cabinet to retain their respective portfolios throughout his term and announced that his administration would follow the policy outlined by President McKinley in his Buffalo speech.

After the obsequies over the late president, the cabinet, at President Roosevelt's request, assembled at the residence of Commander Cowles, where the president is staying until after the funeral, principally for the purpose of informing their new chief of the state of affairs in their respective depart nents. The president desired to learn if there were any matters of moment re quiring his attention before his de parture for Canton. He was assured that there was nothing of pressing im-

A brief private service nad been held within the darkened hamber, Dr. Manchester saying a around, and Mrs. McKinley listened from the half-open door of her adjoining coom. The double file of body bearers ow stepped into the room, and, raising the flag-wrapped casket to their After the veterans came the men of shoulders, bore it through the open entrance. A solemn hush fell upon the the engineer corps of the national guard multitude. The scene was majestic in ong, above the line of heads could be seen the enfolding Stars and Stripes, and on top great masses of white roses

and delicate lavender orchids.

Tenderly the coffin was committed to the hearse, the order to march was given, and the great procession now took up its mournful journey, passing under the sweep of giant trees robed in black, between two living tides of humanity, massed along the streets, covering housetops and filling windows. The funeral procession was very imposing, and included not only the repre sentatives of the army and navy of the United States, but the entire military strength of the state of Ohio, and hundreds of civic, fraternal and other organizations. It was two miles long. Preceding the funeral car, and form ing the first division rode Gene al Torrance, national commander of the G. A. R., at the head of a long line of veterans. The hearse halted while Presfdent Roosevelt and members of the cabinet alighted, and grouped their selves at either side of the entrance with uncovered heads. As the coffin passed within the black draped enrance, the president and his cabinet llowed. The mourners, too, passed side, but the stricken widow was not mong them. to the city. The delay caused by the services at the vault being over, the procession resumed its march. As the head of the division containing the Knights Templars wheeled into the cemetery, the quartet that had been delayed in reaching the place for the previous ceremonies took up a position to the south of the vault, and sank, "Farewell, My Brother." This hymn was followed by others, including "Rock of Ages," "The Christian's Goodnight" and "The Wayside Cross."

The selections were beautifully rendered, and no part of the funeral cere nonies in Canton were more impressive The darkness was gathering fast as the Knights sang on, and the sound of sobs was distinctly audible even in the crowd that lined the fence beyond the line of national guardsmen.

The last of the procession passed the bier at 5:45, and then orders were given by Captain Biddle that the cemetery hould be cleared. The order was uickly carried out, and the dead president was left in the care of his guard

One of the most pathetic features of he day was the absence of Mrs. Mc Kinley from the funeral services at the church, and from the cemetery. Since he first shock of the shooting, then of leath and through the ordeal of state eremonies, she had borne up bravely But yesterday found her too weak to pass through the trials of the final cere onies. Through the open door of her oom she heard the prayer of the min ister as the body was borne out of the use. After that Dr. Rixey remained close by her side, and, although the full orce of the calamity had come upon ner, it was believed by those about her that there was a providential mercy in her tears, as they gave some relief the anguish of the heart within.

### Good Afternoon,

We are proud of the city of Quincy for the patriotism it has exhibited dur ing the last two weeks, and for all that has been done and said in the City of Presidents to the glory of William memorative services on Thursday were very largely attended. The speakers made no mistake in exalting the life of the late President, and they were all able and interesting. The progress of the candidacy o Geo. H. Brown for the Republican nomination for Representative to the General Court has been a surprise to many. Not only in Ward One, but in Wards Two, Three and Four, it has en listed the services of gentlemen who seldom take an active part in politics, as well as many of the party workers. But Mr. Brown is practically a Quincy man from birth, although not born here. He was a Coddington school boy, and his ancestors were Quincy people. His success in building up a large business has been watched with interest, and by some almost with envy. The confidence which the owners of large estates have reposed in Mr. Brown, as trustee or manager, speaks volumes for him, and his interest in the Y. M. C. A., the church and social organizations are all to his

A permit could probably be obtained from the next Legislature to complete the job.

Among those present were Mayor cilman Newcomb, President T. A.

Our Presidents All Worthy

Bloomington, Ills., Sept. 20.-Former Vice President Adlai E. Stevenson gave the principal address at Bloomington's memorial demonstration yesterday. After an eloquent eulogy of Mr. McKinley. he said: "In this hour of national sorrow it is a gratifying reflection that during the more than 100 years of our history as a government, no man has been elected to the presidency who was unworthy of the great office. The eminent statesman whose memory we now honor has with ability and fidelity met the requirements of his exalted station His work is done. His hands are folded. His name is henceforth upon the list of the illustrious dead. Peace to his ashes. May God comfort the one most of all bereaved."

HIGGINSON ON THE STAMD

Court Asked Him to Express Views and He Made come Criticism of Schley's Course-Counsel Objected and the Question Was Withdrawn

Washington, Sept. 21.-The S hl y court of inquiry reconvered yesterday and before adjournment examined four witnesses. The most important incident of the day was the decision of th court withdrawing a question, put by Also a certain parcel of land containing 5,000 square feet on Gass place, together with house thereon. ADMIRAL HIGGINSON,

The witness was Rear Admiral Higginson, who participated in the Santiago campaign as captain of the battleship Massachusetts. This vessel, at one time, was a part of the flying squadron com manded by Commodore Schley, and the court asked Admiral Higginson to state whether all possible measures were taken to capture or destroy the Spanish vessel Christobal Colon as she lay in Santiago harbor from May 27 to June 1, 1898.

Consel for Admiral Schley objected to the question on the ground that a reply would involve an opinion and not a statement of fact.

Judge-advocate Lemly admitted that the precedents were against questions of this character, and the court with drew this interrogatory. It is generally admitted that this decision will have the effect of materially shortening the term of the court, as will also the court's manifest intention to cut out irrelevant ques tions and all hearsay testimony.

The first order of business was the reading by Judge Advocate Lemly of the order of the navy department appointing Rear Admiral Ramsay to a miral Howison, and when this was ac complished, Captain Lemly asked Admiral Schley whether he had any objection to urge against any member of to certain property in Louisa county, in the court: The admiral replied: "I swore the members of the court col- statement: lectively, and was in turn sworn in as judge advocate.

Admiral Higginson testified that he had, as captain, commanded the bat 1: ship Massachusetts during the Spanis! war, and that for a part of the time the Massachusetts had been a part of the "flying squadron," of which Admiral Schley had been in command. He tell of joining the fleet at Newport News, of going to Key West, and then, on the 22nd of May of going to Cienfueges. Cuba. Key West had been reached on May 19, 1898, and Cienfuegos reached on the 22nd.

"What was then done to secure communication with the Cuban forces on shore?" Captain Lendy asked. "Nothing to my knowledge," said the witness. "I did not see that anything was done, but I understand that information con-Tax of 1899, 62 40 cerning the Cubans was received Street sprinkling, 1 65 | through Captain McCalla."

> Captain Higginson said in response to questions that this was later. He also told, in reply to questions, of the presence of the collier Merrimac, and of the departure from Cienfuegos and the arrival at Santiago on the evening of the 20th. The Massachusetts had at that time taken on about 130 tons of coal, but, as the weath r was rough, this was done with difficul y

Speaking of the conditions when San tiago harbor was again reached, the admiral said that he could see well into the harbor and that he saw the Spanish ship Colon lying in the outer harbor. The vessel had lain there until she was fired upon, which was done May 31, and had then retired. Describing this engagement, Admiral Higginson said it was on the day before the arrival of reinforcements under Admiral Sampson. He said that Admiral Schley had come aboard and said that he wanted "to go in and fire on the Colon."

"So we went in and fired on her." con fell short of the Colon, and that the Spanish shore batteries had in turn fired at the bombarding ships.

It is proposed that after the coming season all football and other athletic teams shall be coached by none but regularly employed instructors in the university.

That is the policy that has been followed by the University of Chicago from the beginning, and it undoubtedly is best. The professional coach often forgets the interests of the college or the personal welfare of the men. Who Is The Joke On?

There is one lady in Ward Two who is a sound sleeper but it was not until one day this week that her husband had the fact brought home to him. Opinions, differ as to whom the joke is on. He had been out of town for a few days and came home rather unexpectedly. He arrived in Quincy about 10 o'clock at night and on the way home in the car, remarked to a friend that he had some doubts about getting into the house, as he had no keys and as his wife was not expecting him; he thought she would be at his daughter's residence.

Upon arriving at his home he found it dark, and for a minute he did some hard thinking. A brilliant though then struck him. Taking out his knife he went diligently to work removing the putty from one of the window panes. The job was a difficult one but at last, his efforts were rewarded and the glass was removed.

It was then an easy matter to gain an entrance. Once inside he breathed easier and removing his wet garments, for it was raining hard, he went to work and set the glass removed. This done he gave a grunt of satisfaction and after refreshing himself from the pantry, started upstairs light in hand to retire.

As he entered his bed room, he saw a sight that almost took his breath, and caused him to pinch himself to make sure he was not dreaming, for there on the bed, sleeping soundly as an infant was his wife. She had not heard a sound, and he had all his trouble for nothing, for a ring at the door bell would probably have aroused

Republicans in Line for the Caucuses Next Week.

Nomination papers for canididtes to be voted for at the Republican caucuses were opened in all wards last night. The main contests in the coming caucuses is over delegates to the District Attorney convention and to the convention for two Representatives to the General Court.

In Ward One there are two lists of delegates for the District Attorney convention. The first list is unpledged and the second list is pledged to Robert H. O. Schulz. For Representative there are two lists the first being pledged to George H. Brown, and the second to John McKnight. There are no contests on the other delegations.

In Ward Two the only contests are over the delegates to the District Attorney and Representative conventions. Two lists of delegates have been filed Yesterday by order of Mayor Hall, for each of these. ASA P. FRENCH.

The Promising Candidate for District Attorney.

Asa P. French, Esq., of Randelph appears at this date to be the leading candidate in the Southeastern district for district attorney, but Quincy is giving his friends some anxiety. But when the merits of the case are better

Mr. French is of the soil of Norfolk for he was born at Braintree in 1860, and he still maintains his residence in Ranpolph. His father, Asa French, is one of the veteran members of the Massachusetts bar, and was district attorney of the same district from 1869 to 1882, originally by appointment of Governor William Claffin. Asa P. French prepared for college in the Centre or Wollaston. Address, Rev. 24, Wollaston. English High School, Boston and laston. Adams Academy, Quincy, where he won the Adams gold medal, and at Thayer Academy in his native town. He was graduated from Yale with the class of 182, and during the following year 18-3t AGENTS WANTED—LIFE OF McKIN-LEY—Five hundred page large book. Handsomely illustrated. Outfit free. Now ready. 75 per cent. discount to agents. Freight paid. Credit given. Henry Neil, 323 Dearborn street, Chicago. 82, and during the following year filled the chair of Instructor of Latin and French in Thayer Academy. While a student at Yale he edited the Yale Record for three years.

He studied law in the Boston University School of Law and in the offices of his father and of Hon. George Fred Williams. He was admitted to the Norfolk County Bar in 1885, but did not enter private practice until 1886, when he terminated a two years' clerkship to the judges of the Court of Commissioners, of Alabama Claims, at Washington. He has gained for himself an enviable reputation as an advocate, which is attested by his remarkable handling in association with James E. Cotter, his senior, of the defence of Thomas M. Bram, mate of the barkentine Herbet Fuller (indicted for murder on the high seas), in October 1896, before the Supreme Court of the United States, when the judgment of the Circuit Court against Bram was reversed. This celebrated case brought Mr. French into national pominence and won for him a place in the front rank of criminal lawyers.

The strength of his convincing power in addressing juries was made manifest when he scored the victory of acquittal in the trial of Joseph E. Serry inin the trial of Joseph E. Serry indicted for murder in December, 1899,

In civil practice also Mr. French has figured in important cases and last winter he won fresh respect by his able presentation of the cause of the antivivisectionists before the Committee on Probate and Chancery at the State House.

He has always been a Republican, but has taken no active part in politics except to serve on the town committees of his native town and of Randolph.

The history of the world is also an assurance that the saloon power is doomed. Other gigantic, seemingly all powerful, evils have existed and yet have been destroyed. Persecution of the Christian church endured for centuries, but has passed away. Slavery seemed to be impregnably intrenched in the life of our nation, but it has been crushed out, never to rise again. Murder by dueling was once extensively practiced and sanctioned, but has almost disappeared from the face of the earth. So why should we despair? In the hour when we think not God's vials of wrath will be poured out upon this greatest evil of the age, and it will be doomed. Meanwhile let us be faithful in doing our best to lessen its evil effects and to hasten the day when its doom shall be sealed.

ACCOUNT OF STEWARDSHIPS

Rendered by Members of Cabinet, All the Term With the Probable Exception of Long, Who May Retire

Washington, Sept. 21.-The cabinet White House for the new administra- consequence Rodgers was acquitted. tion, was almost wholly given up to the giving President Roosevelt a chance to take his bearings in the several depart-

The hasty meeting of Tuesday last found most of the members indifferently prepared to give an account of their they have had reports from their subordinates, and have thus got into touch with their temporarily negl cted work. What seems to have astonished all the cabinet officers, except the three who were longest acquainted with him, was the extraordinary quickness with which President Rocsevelt grasped the points held before him, his mind seeming, as one of them expressed it, to leap ahead of each speaker and reach the core of the matter under discussion. From this time forth the regular meetings will be held, and will deal with current affairs as they arise.

The president's former secretary, Mr. Loeb, Jr., will remain with him, probably as assistant secretary. Mr. Cortelyou at the president's earnest request will retain his position as his secretary.

At 11 o'clock all of the members of the cabinet had arrived at the White House, and soon were seated around the familiar table. President Roosevelt occupied a seat at its head, and in the chair long occupied by his predacessor. It all seemed strange to these devoted advisers of the dead president to sit at the table without him at its head, and the gloom and solemnity which characterized the meeting was not unbenefitting the occasion.

cabinet are quite sure to remain during Mr. Roosevelt's term, but it is very possible that Secretary Long will retire within the next few months. He feels that he can resign without embarrassment to Mr. Roosevelt, and, therefore, it is thought that within the next few months he will ask the president to per- line. mit him to retire to private I fe.

The cabinet was in session about an hour and a half, the time being spent in a general review of the more important questions which will require the attention of the new president. All of the members were present except Attorney Genral Knox, who stopped for a few days at Pittsburg. Each explained to the president the policy which had been followed in dealing with the matter under consideration and their present status. No new business was taken up.

The members subsequently expressed themselves as having full confidence in Mr. Roosevelt's ability to give the country a strong, able and conservative administration, and he will have their loyal support to the same degree as they gave it to the late president. It is thought that Tuesdays and Fridays will be selected by the new president as cabinet days, following in this the preference of Mr. McKinley.

## WEEKLY TRADE REVIEW Business In All Branches Continue;

to Be Exceptionally Good New York, Sept. 21.-R. G. Dun & Co.'s weekly review of trade says. Universal sorrow placed a calming hand on the rush and turmoil of the market place. Everything that could be conveniently postponed was put aside out of respect for the man whose life was devoted to developing the wonderful activity in all branches of trade and in-

dustry. After two months of controversy at the steel mills, a settlement has been reached. Managers hope to make up for much of the delay by operating over time. In preparing Tor an exceptionally active year in 1902, some of the largest mills are to double their capacity.

Forwardings of fall footwear to the west and south have about ceased with the advancing season, but producers are all busily engaged turning out goods for jobbers at eastern cities. New England manufacturers have large orders for spring lines. Quotations for sho.s are unchanged, though there is a general advance of 2 1-2 to 5 cents on boots. Abundance of work in prospect has made operators more anxious to secure material, and the leather market averages about 1-2 cent higher.

In dry goods the feature of the week was the phenomenal movement in mourning goods, which advanced in price as the available supply was re duced. Export buying of brown good is not heavy, and domestic orders only fair, but prices are steady at the re cent advance to 3 cents, and a strong undertone throughout all lines of cottons promises well for the future. at that man, but at every American citizen, for President McKinley was the representative of the people, standing between them and anarchy.

It is not alone the wretch that fired the fateful shot, for which he was but a tool, but those who planted in his brain the thoughts that prompted so dastardly a deed, that justice must be done. There is not room in this liberty loving land of ours for anarchy, a poison in the body politic. If the limb is rotten, it must be amputated, and not simply bandaged. It is not enough to drive anarchists out of one town or state into another, for whether in

TESTIMONY OF ALIENISTS

the Assassin of the President is Perfectly Sane-Everything In Readiness For Opening of Trial Today

Buffalo, Sept. 23.-The most important development in the Czolgosz case is the announcement that no poison has been found on the bullet or revolver with which President McKinley was assassinated. Chemical and bacteriological examinations were made, and both re vealed the act that both were free from District Attorney Penney and his en

tire staff spent all of Sunday at Buffale city hall, preparing for the trial of Czol gosz, which was begun today. Mr Penney had conferences with the alien ists, and with City Chemist Hill, who submitted his report upon an examina tion of the bullets and revolver.

Immediately after the death of the president, one of the staff of physicians n attendance on the president expressed the opinion that the bullets might have been poisoned. District Attorney Pen ney, who had possession of the assas sin's revolver, ordered careful and thorough examinations made. Dr Hill was directed to make a chemica examination of the bullets and the examination of the bullets and the chambers and barrel of the revolver. Special in Ladies' Skirts. and Dr. Herman G. Matzinger, one o the surgeons, who performed the au topsy upon the president's body, was ordered to make a bacteriological examination. Dr. Hill reported to the dis trict attorney that his work showed that no poison had been used. He also pre sented a written report, but it will no be used on the trial, as that question is now eliminated from the case.

Dr. Matzinger has finished his bacte riological examination, and his work also revealed the absence of any poisor Authorities on this question state tha The expectation of General Wood is the two examinations form a complete that he will be able to complete arrange test and that the slightest trace of poison would have been revealed.

Dr. McDonald and Dr. Hurd, alienists for the defense, called upon District Attorney Penney shortly before 3 o'clock yesterday afternoon, and remained with him until 3:15, when they were escerted to the jail by Detective Solomon. The insanity experts went into Czolgosz' cell in "murderers' row," and were locked up with him until 4:45 o'clock when they returned to the city hall and held another conference with the district attorney. Fifteen minutes later, Albany, Sept. 23.—Coroner Girvin's Dr. Putnam, a local alienist, appeared

Not a doubt as to Czolgosz's sanity exists in the mind of District Attorney Penney, so that it is presumed that Dr. Hamilton is merely to meet the question of insanity should the defense determine to make a fight on that ground. Although the defense declines to make any definite statement on the subject, pend ing the final opinion of Dr. McDonald those interested in the case that no insanity plea will be interposed by Judges Lewis and Titus. The distric attorney is already fortified with the opinions of Dr. Fowler, Dr. Putnam and Dr. Crego, alienists of some note, that Czolgosz is perfectly sane.

## In Honor of President.

Memorial services in respect to the late President were held Sunday evening at First Presbyterian church, on Water street, which was crowded to overflowing. In introducing Mayor Hall, the pastor spoke of similar services at the death of Queen Victoria.

The Mayor also coupled her death with that of McKinley. The silver lining to the dark cloud would be the uplifting of patriotism and the law. He urged all to be Americans. No nation had a sweeter form of government -a freer government. President Mc-Kinley was entitled to as full protection as any one.

Dr. Todd, the pastor, spoke of the loyalty of old world people. He also thought the lesson should be-a greater respect for law, -and argued that liberty was not license. The second lesson should be to teach us to think more of the Rible and Jesus Christ

Rev. W. W. Dornan of the United Presbyterian church said there was a difference between Socialism and Socialism, and Social Democracy had no relation to Anarchy. He explained what Anarchy was, and was surprised that it should have any foot hold in the United States. Only perfect men should was very satisfactory and there was have full liberty, but where is the fect man. Anarchy was against the church as well as the government and against the home also. It was a pest and a vampire. Lynching was not favored or eviction, but we ought to get at the source of the teaching, and punish as treason.

Anthems, solos and congregational singing were interspersed, and closed with "America.

The West Quincys Were Puzzled over "Phenom" Welch.

The West Quincy base ball club eviently waited too long for the South Quincy team to "get a reputation." Probably the Ward Three boys will admit that at the beginning of the season they were outclassed by the Duffy, it., Ward Four club but when the later Clancy, 2b., ignored the advances of South Quincy Burrell, c., to get a game and it was rumored about Gallagher, 3b. town that West Quincy would wait for Tate, cf., them to get a reputation, it rankled Spiller, ss., Capt. Pirovano and his supporters.

Arrangements were made the first of the month for three games to decide the championship. Games were played on Sept. 7 and 14, but both were unsatisfactory, and it was with difficulty that the two clubs could come to terms for the third game. The West Quincys issued a challenge, but that was unsatisfactory. Both clubs however, met with the City Editor of the Daily Ledger, and after two hours talk agreed to play on Saturday with a non-resi dent umpire to be secured by the that he should give \$25 to the winning on Saturday, Sept. 28, 1901. team and the net receipts to the Quincy

itself together again after a fortnight of anxiety and sorrow such as it has never known. What was intended to be the gala period of its history was turned into unspeakable grief which has gone into every home with a force hard for any one not here to realize. Buffalo was full of personal loyalty and

enthusiasm for President McKinley. It has been a centre of McKinley senti ment all through his public career and there was no city in the country where friendship and devotion for him was end, while its guest, depressed the city beyond expression.

There never was a community more engrossed in a great undertaking than Buffalo was with the Pan-American exposition three weeks ago. Every man, woman and child in the city had a direct interest and pride in the undertaking. It seemed that everyone with whom a stranger spoke had in mind the large ideal of great good which the demonstration of the wonderful re sources and abilities of the Western hemisphere was to do for the country Buffalo people seemed rather proud that the whole expense of the demonstration had fallen upon them and their fellowcitizens. They would call attention to the fact that all of the funds had been raised in Buffalo without the assistance from the nation, the state, or even the

eity corporation. When, in his memorable address, the president emphasized the Pan-American idea and made it part of history, the forts were appreciated. They seemed contented and proud that, as individwhich might well have been the nation's undertaking. The revulsion was terrible, and now that it is passed the question of what is to come is interesting. The public feeling is strong, and all that the stockholders of the exposition have met a great loss, probably of no less than \$1,000,000. That practically means the citizens, for about every Buffalonian has stock in the exposition according to his means. The dollars and cents seem pretty thoroughly to be eliminated from the calculation now, but the work to be done and the end to be achieved seem foremost in

the exposition must be carried to a glorilove. President Milburn and Director General Buchanan were seen yesterday. President Milburn put this thought very strongly. He said: "There must be no faltering in our efforts now, considering how much the suffering from appendicitis, for about

It is a strange stroke of fate that the success of the exposition should be threatened through this fearful tragedy. We should be lacking in loyalty to his memory of we did not bend all our energies to crowning the work which he had so close to his heart.

"The position in which the tragedy found me gave me the opportunity to know what was in that great soul during the hours just before that execrable shot. The president had taken the deepest interest in the exposition from the start. Its ideal and conception are in harmony with his wise and beneficent public policy. The years that have been spent in the evolution and development ence of the nations of the Western hemiintended making a long bicycle trip," says sphere, which we call the Pan-American idea, have their first full expression in this exposition. I know that had he self-destruction. been spared to conclude his visit he intended to commend the exposition in his powerful and convincing way to the

support of the public. "There are six weeks more of the bloom of its beauty and interest. Every feature of it has been developed to its highest point, and it is being operated on a more elaborate scale than ever. It is a national enterprise, and should ment. be supported as such for the credit of our country as the leading nation of this hemisphere. Jurors Are Selected and Trial of Czolgosz Is Begun

But It Could Not Be Accepted Under the Law-Doctor Tells Why Bullet That Killed President Was Not Located at the Autopsy

Buffalo, Sept. 24.-Leon F. Czelgosz was placed on trial yesterday charged with the murder of President McKinley. He entered a plea of "guilty," which

guilty, by the direction of the court. All the events of the day tended to in dicate that the trial will be short. There was not a suspicion of a quibble over any question whatever and counse for both sides seemed to be in perfect harmony. Court convened at 10 o'clock and before two hours had elapsed eight jurors had been secured and this in itany murder trial in the state. Tech icalities were not raised.

Truman C. White was on the bench Immediately after the opening of the court and after the prisoner had pleadgether with his colleague, former Justice Titus, and Carlton E. Ladd, they were ready to act in behalf of the pris

"I am familiar with these circuit stances," said Justice White in reply and I wish to say that I will give you every assurance that the prisoner wil have a fair and impartial trial, and tha luring the progress of the trial he will receive such treatment as the law de mands in any criminal case."

The work of securing the inco then undertaken with a celerity tha was amazing. Before the day was ove the entire panel had been sworn and had listened to a description of the templ of music where the crime of curred, had seen photographs of the in terior of that structure, and had been told by three surgeons what caused the death of the president and the result o the assassin's shot upon the various o gans of the body. They had also learned why the fatal bullet had not been lo

cated. The presentation of the government's case began shortly before 3 o'clock when Assistant District Atterney Haller began to address the jury. His talk was very brief, and consumed scarcely five minutes.

"We shall show, said he, "that, for some days prior to the shooting, this defendant had premeditated the shooting of the president. He knew that or Sept. 6 the president would receive the populace in the temple of music, that on that day he went to the expositi n, go into line with the people and approached the president so that he had a weapon concealed in his hand, and as the presi dent extended his hand in kindly greet ing, he fired the fatal shot.

"He fired two shots, in fact, One of them took effect in the abdomen and caused that mortal wound which re sulted in the president's death. That, in brief, is the story we shall show you. Witnesses will tell you this story, and I am sure that when you have heard the evidence you will have no difficulty in reaching a verdict of murder in the first land, 6; Washington, 3. station, will assume command of th Boston yard on Oct. 1. Admiral Sampson will retire by age limit Feb. 9, 1902. He could retire before that if he wished to, under the 40years service clause, on his own request, r he could apply for retirement, to take effect immediately, on account of poor health. However, as naval officers generally take pride in serving out their full term, it is probable that an extended leave of absence will keep Admiral Sampson on the active list until Feb. 9.

## Student Has Disappeared

Amherst, Mass., Sept. 24.—Francis M. Rose of Faribault, Minn., came to Amnerst a few days before the opening of the term, having completed the proliminary arrangements for entrance into Amherst college as a freshman. He established himself at the Amherst House, and on Monday, Sept. 16, went in search of rooms. The next day he paid his bill at the hotel and suddenly disappeared, leaving his trunk with no rrangements completed for its disposal He wrote a letter to his parents Tuesday, saying that they would never se him again. According to rumors that have leaked out from the Committee room, the Committee on Public Buildings is divided against itself. From the same source comes the information that the committee had practically got the matter down to two plans, one by a local architect and the other by a nonresident architect. These two plans have been the bone of contention which has prevented the Committee from reporting as they could not agree.

But now they have been ordered to report at the meeting next Friday evening. In previous years when a new school building was proposed the custom of the Committee on Public Buildings has been to forward to the School Committee all the plans re ceived. The School Committee would approve of certain plans and then the Public Buildings Committee would report upon one of the plans accepted by the School Committee. But in acordance with the plan of this year's Council to do things different from other Councils, the Committee on Public Buildings have completely ignored the School Committee, and not a sign of a plan have they seen as yet.

Possibly a plan may be sent to the School Committee tonight, but it is School Committee tonight, but it is doubtful if they will consider and approve at one meeting plans that the FOSTER, at 67 Washington street.

Columbia and Shamrock Are Officially Measured

BUT FORTY-THREE SECONDS

Allowed the American Boat, the Smaller of the Two, Over the Thirty-Mile Course-Lipton Seems to Be Sure of Lifting the Cup

New York, Sept. 25.—Preliminary to up, to take place tomorrow, the two yachts, Columbia and Shamrock 11, were measured yesterday. Columbia has already proceeded to her moorings at Sandy Hook, preparatory to the r..c.. Shamrock joined her this morning.

The official measurements of the cup yachts were made public last night at the New York Yacht club. The result was in the nature of a surprise, for it showed that the Shamrock, which is the larger boat, so far as sail area and displacement are concerned, allows only 43 seconds to the Columbia over a 30mile course, on which the contests for the America's cup are to be sailed.

The Shamrock has a shorter water line length. She has a longer spinnaker boom, a longer gaff, a longer top mast and carries more canvas. Mr. Watson, the designer of the Sham

rock, by keeping down the load waterline length of his yacht, has got the better of his rival, Mr. Herreshoff. The sail area of the Shamrock is larger, and by judicious handling of his spars is only penalized 43 seconds.

When the approximate result of the measurement of the Columbia and Shamrock were told to Mr. Lipton in of Southampton and Cherbourg, was the Erie basin, he could scarcely con-

THREE INDICTMENTS Returned Against Lambert In the Case of the Allen Murders

Dover, N. H., Sept. 25 .- The grand jury for the September term of the supreme court for this county yesterday returned three indictments against Henry Lambert of Shirley, charging him with the murder of J. W. Allen, Mary Allen, his wife, and Carrie Allen, their daughter, at Shirley, on May 12 last. On account of the large number of criminal and civil cases on the docket Lambert's trial will not be held until Nov. 19. Lambert will remain in jail here awaiting the trial.

The crime came to light on May 13 when the bodies of J. W. Allen, a prominent and prosperous farmer and member of the board of selectmen of the town of Shirley, and those of his wife he first of the races for the America's and 14-year-old daughter, were found lying among the smouldering embers of their home ,on a lonely stage road, leading from Monson to Moosehead lake The bodies were burned so badly that only the charred bones were left to show that human lives had been sac rificed. There were evidences of murder, and for a time there was an air o deepest mystery. Allen was 68 years of age; his wife was 60.

Henry Lambert, a French-Canadia guide, who lived nearby, was at firs supposed to have seen the light of the burning house, and upon hastening to the rescue, was set upon by the mu derer of the Allen family and killed. Lambert, however, made his appearance on May 14, and said he knew nothing concerning the tragedy. Lambert was arrested at Shirley on May 16, on sus picion and was bound over for his ap pearance at the September sitting of the grand jury. He is 26 years of age and has been in Shirley nine years.

Death of Prince of Tramps

Bosten, Sept. 25.-There now lies in the city morgue a middle-aged man who had been all his life a "hobo," and was proud of his profession. In his younge days he was known as John Healey, but in the last 30 years, under many name. and titles, he has almost girdled the globe, without any money and without work. He attended the queen's j.b. lee, he started for the czar's coronation and has travelled all over Asia. He was present in Washington when Garfield was assassinated, and in Buffalo when McKinley was shot. It was on his way from Buffalo to Beston that he was killed by a train at Mattapan.

HARRIS SLIGHTLY AHEAD Interest In Bay State Caucuses Centered In Attorney Generalship

Boston, Sept. 26 .- The Republicans of Massachusetts held their state primaries yesterday. The absence of a contest for the head of the ticket did not make the primaries a dull affair, for the big fight had been precipitated by two energetic candidates for the office of attorney general, to succeed Mr. Knowlton.

The battleground was in the castern part of the state, centering in Suffolk county, which is the city of Bestoe, and having Middlesex and Essex counties for the skirmish ground. Gove no Crane and Lieutenant Governor Ba es will be renominated in the state convention with not even the suggestion of a whisper of opposition. The balance of the ticket will be quickly namid, undoubtedly confirming the present list of office holders, except that of attorney general. For this office the candidates were

# BORDEN'S LATEST MOVE

Has Stirred Up the Fall River Mill Men

TEXTILE COUNCIL ACTS

Will Ask For a General Advance of Five Percent-Manufacturers Not Disposed to Accede, and Accept the Prospect of a Strike

Fall River, Mass., Sept. 26.-Prominent members of the Manufacturers' association say that they will await the receipt of the formal request of the Textile Council before taking any action on the announced increase of 5 percent Herbert Parker of Lencaster, well in the wages of the Bourne and Iron

No one can tell at this time what the final action of other local manufacturers just as well and favorably known in will be. They do not disguise their anger at Mr. Borden's move in advancing wages above the high water mark, when Makers' International union, and John dates had covered several weeks, and cotton is higher and cloth is lower than they have been within a twelvemonth That is to say, cotton is now at 8 1-4 cents, and print cloths are nominally at 3 cents, while they were at 31-8 cents counties, and Mr. Harris of the southern about nine months ago, and cotton wa then 1 cent a pound lower. The voluntary advance of the Iron Works mills was as much of a surprise to the labor leaders as it was to the manufacturers Because of the recent fiasco in the Manufacturers' association, whereby a vote to reduce wages was not carried out, there has been a lack of unity among local manufacturers totally unlike any previous condition known here. But the action of the Iron Works mills seems likely to cause a burial of hatchets and a revival of the community of interests idea for defense against the one whom most manufacturers today regard as a common enemy.

At a special meeting of the Textile Council last night It was unanimously voted to instruct Secretary Whitchead to address a communication to manufacturers, asking that notices he posted in all the mills giving an advance of wages similar to that posted in the Iron Boston, Sept. 26.-By the will of Ed- Works and Bourne mills. The manufacturers refuse to talk about what they will do, now that accept the prospect of a strike and say expressmen against the New York and that an enforced shutdown will work Boston Dispatch and the Earl & Prew to their advantage. They claim that than to the present quotation. They also say that the stock of gray goods in this city is a great deal larger than is generally supposed. Some of the treasurers say it will reach 1,000,000 pieces. Now that the indications point to better prices in the cloth market a curtailment would have, it is believed, a steadying effect on the market, besides giving a reduction of stock on hand.

The talk of an advance had little or no effect on the market, which closed steady yesterday at 3 cents.

Alleged Shoe Thieves Caught Denver, Sept. 26.-The police have arrested four men in connection with the

SMALL CALIBER RIFLES. How They May Be Kept Clean With

a Squirt of Water. "Now, I'll tell you something that will save you the trouble and expense of bringing this gun to me again," said the caucus, Elihu T. Spear clerk, and the expert gunsmith to the owner of a .22 caliber magazine rifle, the barrel of which had become so foul that it would not shoot true.

"The rifles of this gun are not leaded. They are simply caked up with powder. All small caliber rifles get that way when ordinary, soft bullets are shot out of them. This caked powder is as hard as steel, and if I were to try to get it out with instruments I would ruin several dollars' worth of tools. Water is the thing to use. Water is the greatest solvent known, but very few people, particularly people who handle guns, seem to appreciate it. They nearly always try to clean their

do the work twice as well. "You use this rifle mostly for shooting frogs, don't you? I thought so. That is what most men use a .22 callber for. And you sometimes shoot it several hundred times a day, and you find it too much trouble to wipe it out every few shots. Ain't I right? I knew it. Now, let me tell you what to do. Get a small syringe that you can carry of water into the barrel of your gun from the breech, then shoot a cartridge out of it while it is wet. If you will follow this plan, you can shoot your gun 10.000 times and never need to clean it. The water softens the powder that has accumulated in the rifles and the bullet forces it out.

wise, could not have been desired, for during the greater part of the afternoon the athletes were favored by warm sunshine and a cooling breeze which blew down the home stretch, but was not strong enough to affect the flight of the runners.

Between the American universities honors were equally divided, the Harvard men winning three events and the Yale men carrying off first honors in a similar number of events.

The Oxford representatives failed to gain a point for the visiting team, the light blue of Cambridge being in front in all three contests which were won by the Englishmen.

The greatest race and closest contest of the day was the 120-yard hurdle race. The issue was between Garnier of Oxford and Converse of Harvard from the crack of the pistol. Up to the eighth hurdle they were abreast, several yards in front of Allcock of Cambridge and Clapp of Yale. Going over the last hurdle Converse gained a couple of inches and, as he threw his hands up at the tape, he was barely six inches in front of Garnier, the time being 153-5

In Twenty-Three Mile Race

gest crowds that ever put to sea went down to the Sandy Hook lightship yesterday to witness Sir Thomas Lipt n's second challenger, the Shamrock II, and the white flyer Columbia, which successfully defended the old America's cup against his first trophy hunter, two years ago, struggle for the vachting supremacy of the world in the first of the cup races of 1901.

But the excursion fleet returned dis appointed. The great single stickers went out fresh for the battle, but the sea refused them a field of conflict. The sometimes as slow as three knots, was too light and shifty to carry the contestants over the 30-mi'e course in the time allowed by the rules. At the end of 5 1-2 hours the race was officially de clared off, and the yachts were towed back to their berths inside of Sandy

When the gun aboard the commit e boat was fired to call attention to the signal declar ng the race off, the Amer ican boat was still five miles from the astern of her, the experts estimat over three-quarters of a mile.

Americans will have reason to con gratulate themselves upon the result of he first trial. The Columbia was neaded but once in the 25 miles covered, and then the Englishman showed the

In windward work the Columbia beat the foreigner 7 minutes and 15 s conds to the outer mark, and increased her lead somewhat in the broad reach for home. While the test was unsatisfactory the yachting sharps who have been skent'eal up to this time as to the ability of the Columbia to successfully defend the cap are more confident that it will remain on this side of the Atlantic a while longer. Certainly Co lumbia's superiority in light airs an pears to have been demonstrated.

Shamrock II did not, in fact, make so good a showing as did L'pton's first challenger in the half dozen flukes t'at preceded the actual races two years ago. What Shamrock may be able to do in heavy weather is, of course, problematical, but Columbia has been tried and all her admirers insist that she is disfinctly a heavy weather boat.

Two years ago Mr. Lipton's prayer was for wind, but when he got a smash ing 25-knot gale in the last race, Columbia's victory was even more d cisive than in the first. Since then Columbia's ability in heavy weather has been proven again and again.

The harder it blows the faster she goes and the better she behaves. It is not strange, therefore, that the parrio 1: skippers and spectators who went down to Sandy Hook with misgivings re turned reassured and strongly disposed to wager that the pretty wreath of shamrocks and white heather from to oldest yacht club in the wo 11, which Mr. Lipton is treasuring in the cabin of his champion, will prove no mascot

The day had promised well at first A strong northeast wind had been blow ing for two days, and the weather prophets had offered assurance that it would hold. It had piled up what salormen call a nasty lump of sea outs de and before the race began was whipping the foam off the crests of the waves.

Barr's Fine Jockeying

At 10:55 o'clock a puff of sm ke burst from the committee bcat, and the preparatory signal for the race had been given. Then began the jockeying be hind the line, of which Charlie Barr, the American skipper, has proved him elf a grand master. He got into the w n !ward berth, and the Englishman could not shake him off. As the warning signal was hoisted, 10 minutes later, the but the Columbia hung to him as if one tiller were answering for both, and

Insists That No One Knew of His Plans to Murder the President

Buffalo, Sept. 27 .- Leon F. Czo'gosz, the assassin of President McKinley, was sentenced yesterday afternoon to be put to death by electricity in Auburn state prison during the week beginning Oct. 28, 1901. Prore sentence was passed the assassin evinced a desire to speak, but he could not get his voice above a whisper and his words were repeated to the court by his counsel.

"There was no one else but me." the prisoner said in a whisper. "No one me to do it. I was not told anything about the crime and I never thought anything about that until a couple of lays before I committed the crime." Czolgosz sat down. # LINCOLN'S FINAL GRAVE

Once More Moved

## GREAT SECRECY OBSERVED

Even Newspaper Men Knew Nothing Of It Until It Was Over-Casket Containing Remains Will Be Sunk In a Solid Block of Concrete

Springfield, Ills., Sept. 27.-The remains of Abraham Lincoln were placed resterday in what, it is expected, will be their final resting place. The casket was taken from its former place in the nonument to Memorial hall, and was there opened. The body was viewed by mill in this city paying a higher wage Acting Governor Brenhalt, representing scale, that mill will be compensated for the state of Illinois, and by state officers who are members of the association, some members of the old Lincoln guard of honor and the contractors.

The removal was conducted with great secrecy, no newspaper men having knowledge of the event until after it had been accomplished. The casket termined. was finally placed in the vault recently completed by the Lincoln Monument association.

Two feet of concrete protect the bottom of the casket. The excavation is 15 feet deep, and surrounding the casket is a steel cage, around which will be placed a solid concrete wall, to be a composition of stone and the best cement. The location of the present resting place is immediately beneath where the saucophagus formerly rested. It is understood the remains were not in a very good state of preservation, but were easily identified.

Following is a summary showing the number of times the remains of Pres dent Lincoln have been moved:

May 4, 1865 - Casket containing the body of Abraham Lincoln was received record of 2:02 1-4 at the Belmont driv. in Springfield, Ills., and deposited in the public receiving tomb in Oak Ridge cem

Dec. 21, 1865-Removed to new brick vault to receive it on east side of the national Lincoln monument, and de posited in centre crypt in catacomb. Oct. 9, 1874-Removed from the centr crypt and from iron casket to a leadlined cedar case, and deposited in the

Nov. 18, 1876-Placed in excavation in ground in middle of corridor between the base of obelisk and the catacomb.

Nov. 22, 1878—Covered six inches deep and ground levelled down like the rest of the passageways under the terrace of the monument.

March 10, 1900-Removed from conwas seen to leave the vessel. At least srete (as the national Lincoln monument was taken down).

April 24, 1901-Placed in the marble sarcophagus in the excavation in the catacomb of the newly rebuilt monument.

Sept. 12, 1901-Removed from the sarcophagus and placed in crypt beside Mrs. Lincoln. The constant changes which have

been made in the disposition of the body have been a constant annoyance to the family and friends, and great relief is expressed that it is in its final resting

Not Very Well Understood by Schley on the Twenty-Second of May

Washington, Sept. 27 .- The Schl 3 court of inquiry had only one se si n yesterday, adjourning at 12:45 o'clock in order to permit its members and others engaged there to attend the funeral of Judge Wilson, late clie counsel for Admiral Schley. Capt in Wise concluded his testimony, Admir. I Cotton made a brief statement on re call, and Lieutenant Wood, who commanded the dispatch boat Dupont dur ing the Spanish war, began his e ti-

Captain Wise was ques lored at con he had satisfied himself of the presence of the Spaniards, he had been content to communicate his knowledge to Commander Schley through Captain Sigsbee, not considering it necessary to make direct communication with the commander-in-chief.

Lieutenant Wood gave the particulars of his delivery of dispatches from Sampson to Schley on May 22, while Schley lay off Cienfuegos. He said that tel keepers measure our appetites by Schley seemed very nervous and espectheir own and give you so much to eat, ially anxious to know what Sampson's particularly at the noon dinner, that intentions were. He had not concluded you are stupid and sleepy all the rest his testimony when the court adjourned

Winn peg, Man., Sept. 27.—The Duke Week days—5.45 A. M., then 15 and Duchess of Cornwall received their 45 minutes past each hour until 11.15 first welcome in the west at Winnipeg P. M. yesterday. Thousands of visitors from the prairie towns gathered for participation in the reception. After the forma presentations the duke and duchess were escorted through flag-bedecked streets, and under great arches made of wheat, to a stand in front of the city hall, where addresses were made to them. The duke replied, after which he presented service medals to 96 young Canadians who served with the colonia contingents in South Africa.

Favored by Immigration Officials New York, Sept. 27 .- John O'Connor, rho fought in South Africa for the Boer cause, and, after capture, escaped from a British military camp and came here as a stowaway, was allowed to land yesterday by the immigration authorities. He was born in Philadelphia i 1869. Some years ago he went to South Africa as a gold miner, and be came a naturalized citizen of the Transvaal republic. After his escape he made his awy to England, and at Southampton stowed himself on the steamer

# Cried Himself to Death

La Porte, Ind., Sept. 27.-Caleb Harvey wept continuously from the afternoon President McKinley was shot, and frequently went into paroxysms of grief. It was found impossible to control or assuage his grief, and up to the hour of his death yesterday he wailed constantly. Physicians say he literally cried himself to death.

In Christ's Keeping.

Let the mind be in Christ's keeping and under His control. Let all our thoughts be gathered up and brought into captivity to the obedience of Him. Let the man be trained to think according to the eternal principles of love and truth and righteousness and purity which Jesus taught. Let us learn to think Christ's thoughts and bring all our opinions to this test: What would Jesus think about it? Let this be the prayer: If my imagination pictures any impurity, O Lord, efface it instantly! If my thoughts are wayward, wandering from the path of right, Lord Jesus, bring them back! If they attempt to fly beyond their proper sphere, oh, clip their wings! If they are bent on mischief, turn them aside! Hold them in complete subjection to Thyself! May they be illumined by Thy light, seasoned by Thy grace, sweetened by Thy love and sanctified by Thy Spirit!-Rev. A. Vennema in Christian Intelli-

A Fundamental Error. Christianity teaches that food, drink, raiment or creature comforts of all sorts, yea, life itself, are infinitely beneath consideration when weighed against the spiritual service of humanity. Bodily health and vigor, sound digestion, good sleep, keen sense perception are all good if rightly used or subordinated to higher faculties, but to speak of them as forming a harmony with the higher is placing the soul and body on the same plane, and this is a fundamental error in educational psychology.-Hon. W. T. Harris in the Congregationalist.

The American league championship season will end Sept. 28, while the final games of the older organization will not wind up until Oct. 2. This will give the followers of the National league the last yell before the players and cranks take up their season of enforced retirement and prepare rabbit shooting plans for the late fall and winter. That is a singular thing about best. As wing shots I doubt if any of shooters and are pretty handy with their shotguns over the traps.

They say he has grown so fat that now such sport is not so alluring as it was. The impression has gained ground that the recent meeting of the Players' Protective association was not so harmonious as it might have been. It is true that none of the American league players was present and few from the minor leagues. Still, according to the information I get from the players, all was harmony. There is a chance that another meeting will be held later, when the players from both organizations will be able to be present.

The position taken by the players to ignore the reserve rule, but to prohibit contract jumping, was expected and did not create any surprise. This was the sentiment of the players as a whole, although it is regarded in some quarters as a direct slap at the club

The failure of the Hartford club comes so late in the season that the disaster will not seriously affect the other teams in the Eastern league. It illustrates the fact, however, that big jumps in the smaller leagues cannot be made encocefully and should not be attempted. Hartford's geographical situation makes the city undesirable company for the other Eastern league teams, and long jumps made it practically impossible for Hartford to come out on the right side of the ledger. # Good Afternoon

The sooner Quincy Republicans adopt the Brockton plan of nominating candidates for the Legislature, the better it will be for harmony in the party, and fairness to candidates. Brockton has a double district like Quincy which is entitled to two Representatives. It does not include the whole city like Quincy, because Brockton is larger, but it includes three wards-one, two and five.

For nomination in that district in Brockton this year there were six candidates and all those who attended the Republican caucuses soted on the six, and the totals for the three wards were added with the following result: Garfield 363; Poole, 208; Allen, 207; Tappan, 184; Copeland, 128; Jackson,

At the same time delegates were elected in each of the three wards, to comply with the caucus act, but they are expected to vote for the two leading candidates; in this case Messrs. Garfield and Poole. In the report of the caucus the Enterprise says these gentlemen "became the nominees," although the formal convention will not be held until next week.

How different in Quincy, an unsatisfactory whoever is nominated. Whenever a man aspires to be a Repre sentative, no one is supposed to file in his ward a list favorable to a gentleman living in another ward, and if he does there is trouble.

Representative Badger of Ward Six is a candidate for renomination but as there were aspirants in Wards One, Three and Five, be did not file lists in those wards and the voters did not have a chance to express their preference for or against him. It was the same last year when Mr. Badger was nominated.

Because George H. Brown filed a list in Ward Three and won out, there is war to the knife there. The voters at the same time expressed no choice for the second candidate, because they were not allowed to.

Wards One and Two have expressed their preference for John McKnight, but have delegated their powers to a few men to select the second candidate.

Some of the wards which have expressed themselves in favor of one certain candidate must get left entirely on both nominees, as the convention South Terminal Station News Stand can select only two from the four or

When camdidates are the direct choice of the whole party, they will be stronger, and more sure to command the party vote on election day.

The leading editorial in the Quincy Patriot today handsomely endorses William E. Badger, the Quincy candidate for County Commissioner, as follows: To most of the Quincy readers of the Patriot the local candidate for the Republican nomination for County Commissioner needs no introduction or BED and TABLE LINEN endorsement. Mr. William E. Badger is a member of an old Quincy family, which was prominent in town affairs for generations before we became a city

and always had the reputation for honest dealing. For years Badger Bros. have been extensive quarrymen of famous granite and recently have maintained a large plant for polishing granite. Machinery has been another department of this firm and at the head is Candidate Badger, an expert practical machinist. The manufacture and repair of heavy machinery, engines, etc.,

knowledge of machinery is so extensive that he has appeared in several court ases as an expert witness.

Mr. Badger's attractive residence on Crescent street attests to success in business and pride in his surroundings and domiciles a happy family.

As Councilman-at-large of the city for three years he was one whose opinions always had weight, and during the past year he has served faithfully as a member of the Board of Health which has had to cope with a small which has had to cope with a small pox case and the many changes which come with the introduction of a sewer system. As a vote-getter his record has not been beaten in the city. Yet he is not a politician but merely a business man.

The Patriot can heartily endorse William E. Badger for the office of East Norfolks and the Clark Unions County Commissioner and he is a candidate over whom all the voters of the county can enthuse if they desire an honest, faithful, popular and able public servant. With such a gentlemen would never be a suspicion relative to any transactions of county affairs. We the pastor of Williston church at that street purchased by John W. Mc testimonial in the interests of our friend Mr. Badger. May we say in 1902. Commissioner Badger.

We pass by beautiful familiar things oo often, looking for objects that lie beyond us. On entering Mt. Wollaston cemetery at the end gate near the foot; of Greenleaf street, a slender, polished shaft of tinted granite will be seen. Upon the top, is a beautiful chiseled oust of a young girl of ninteen years, with drapery around the shoulders. The name of Tosca is cut beneath this, and an Italian name and dates are cut in the base that supports it.

## The Noon Alarm.

The alarm from Box 61 at 12.10 this oon was for a slight fire in a house on Squantum street, owned by William A. Hodges and occupied by Alex. Pitts. Children were playing with matches in one of the chambers and set a mattress a fire. This was quickly thrown out of the window, and the recall sounded.

# The Late Mrs. Elcock.

The funeral of Mrs. Julia, widow of Michael Elcock, was held from St. Mary's church, West Quincy, on Friday. It was one of the largest funerals ever seen in the place, showing the esteem Oct. 2-Representative at Republican head- and respect in which she was held. It was attended by people from Newton, Salem, Boston and surrounding places.

It was a touching scene to see eight of her grandsons acting as pall-bearers. The requiem mass was said by Rev. Fr. Foley. In the sanctuary were Fathers Cuffe and Johnstone.

As the body was being borne into the church, "Nearer My God to Thee' was touchingly rendered by Miss Mary 'Fading, still fading.

FROM HAIN IN THE WOODS.

- When on the leaves the rain insists, And every gust brings showers down;
  When all the woodland smokes with mists,
  I take the old road out of town
  Into the hills through which it twists.

- The lichen colored moths are pressed,
  And, wedged in hollow blooms, the becs
  Seem clotted pollen; in its nest
  The hornet creeps and lies at ease.
- The butterfly and forest bird The tree toad's voice is vaguely heard.
- I crouch and listen, and again
  The woods are filled for me with forms;
  Weird, elfin shapes in train on train
  Arise, and now I feel the arms Around me of the wraiths of rain.
- O wraiths of rain! O trailing mist! Still fold me, hold me and pursue! Still let my lips by yours be kissed! Still draw me with your hands of dew

But no sooner had Tom taken his de parture than Mrs. Johnnie decided to do nothing of the sort. She was a bustling little body, forever on the go, and when once an idea crept into that clever little head of hers she was inclined to carry it through to a finish in her own particular way.

Consequently Mrs. Johnnie did take the 12:10 local, and within five min that she had followed Tom's advice, for it was hot and dusty, and they were wayside station. crawling along at a snail's pace, and there were some rough looking customers on board, and-well, oh, dear! After all, Tom did know what he was talking about occasionally.

At the far end of the car a young woman was sitting. She looked so young that one might almost have called her a child in spite of the fact that her pretty brown hair was twisted up on the top of her head in a vain imitation of the latest fashion and the (to Mrs. Johnnie) most atrocious fact that her cheeks were covered with rouge.

Mrs. Johnnie gathered her belongings together and set out to take possession of the seat just in front of the young girl, and then, half turning, she scrutinized the young woman at her leisure. She could do so without rudeness, for the bewildered girl and spoke to her the girl was gazing out of the window, and her thoughts seemed to be far away. "It's a sweet little face," thought Mrs. Johnnie, "and I don't care if it is painted it's innocent and trustful. Her dress fits her abominably, but she has talk with you." a glorious pair of eyes. She's a post-

It did not take Mrs. Johnnie very long to gain the particulars of her story. She had never been to the city before, she said; indeed, except for some little excursion now and then, she had never left her home, which was in a little village on the coast of Long Island. She was so glad to have some one to talk to, for of course she was feeling a bit lonely. Then she told Mrs. Johnnie that her name was Daisy-Daisy Hope-and that she was an orphan with just one sister. Her name was Sophie, and she was married now. They had always been the very best of friends-she and Sophie-until Dan Hackett came along. Nowadays, she added with a sigh, Sophie had eyes for no one but Dan.

"But I shan't mind it so much now," she added, suddenly brightening up again, "now that I'm going to be mar-

The play, besides, is illogical and in almost every sense mprobable. There is not in the construction any of that authoritative treatment which causes improbable episodes to appear to be the most natural things in the world. The language is more than ordinarily good, but that is really all that can be said in praise of Mr. Irving's drama. Mr. Sothern is given an awful task in the title role, and despite his really fine work it must be admitted that it was not lifted to the domain of naturalness. Love at First Sight.

We talk of love at first sight, but what shall we say of people who have never seen each other marrying and being not unhappy? "Courting," said an Irishman, "is like dying—sure a man must do it for himself."

In some countries-as, for instance, Sweden-this is not the case. There the marriages of young people are made for them by their parents, and they only begin to court when they are wedded. This sounds wrong and absurd in theory, but it often works well in practice. Indeed young people ask the advice of their parents much too little about that which is perhaps the most serious and important undertaking in life-marriage. Too many of them are like the young lady who said she hoped "This is a matter I shall have to decide she might be cut into ten thousand triangles if she did not know more of everything than did her mother. BARR SCORES FIRST

Lipton Expects to Win Thursday's Race

NEXT COARSE TRIANGULAR

Balked Every Scheme of Barr to Pass Until the First Stake Had Been

An anxious lot of yachtmen gathered at the New York Yacht club last night George F. Hoar. for another talk over Saturday's exciting race, and the chances of the Columbia in her next contest with Shamrock H on Tuesday. Every member frankly admitted that he had experienced something like a scare and no one wanted to have the Columbia win another race by so close a margin. The bulletin board on which was tacked the committee's brief summary of the race; was the chief attraction at the club and before it all the evening was a group of more or less expert amateur skippers, lumbia would be able to accomplish in the triangular race on Tuesday. Everyone hoped for the best and many recalled that during the preliminary racing with the Constitution and Independence the Morgan boat had shown much speed when sailing with started sheets.

In the race on Tuesday, if the wind holds true, two of the legs of the triangle will be sailed under these conditions. One of the legs, probably the first, will be a beat of ten miles to the windward, the next will be a broad reach under large jib-topsails or baloon fibs, while the third leg will be a close fetch to the finish line.

have shown great speed, and the Columbia has frequently made one of the ten mile side of the triangular races in something under three-quarters of an hour. It is said that the Shamrock II has reach, which is a triffe better that the Columbia has done, but such timing home today. connot be considered absolutely reliable. At any rate in a good breeze, the race on Tuesday should be a fast one.

the boats at the start, but at the yacht club there seemed to be the utthat she would keep it to the first turn. But here came the question of the American boat's ability to hold the Shamrock in the next two legs. With her long lines there were many who semed to think that the challenger might outfoot the defender and that Capt. Barr's only resource would be in a hot luffing match.

If Captain Barr can win Tuesday's race, the clubmen will heave a long sigh of relief, but until that triangular contest is decided in favor of the Columbia, the cup will be considered in danger. Saturday's race began the twelfth series for the cup. It was one of the closest and most exciting races ever sailed for the trophy. With a breeze of eleven knots, from a little south of east, Columbia and Shamrock II started at 11 o'clock to resail the race which was not finished on Thursday. Shamrock got the best of the jockeying for position and crossed the line in the weather bertly with a lead of two seconds, official time. Shamrock held her advantage despite Columbia's attempt to backwind her, and took the lead. Columbia was also unable to forereach the challenger and they started the long clearly ahead. At 12:40 o'clock the Shamrock, which still held the windward position, forced the Columbia to come about. The race to the outer mark was a magnificent contest. There was very little difference between the two yachts over the first half of the long beat, but Shamrock began to draw slowly away after the outer mark was sighted. Shamrock rounded the stake boat with a lead of 41 seconds. This was a gain of 39 seconds on the beat. On the run home the grand contest continued. Both yachts, enveloped in a line. Slowly but surely Columbia pulled up on her rival and finally took the lead. holding it till the finish line was crossed. winning the race by one minute and twenty-three seconds corrected time. MASSACHUSETTS POLITICS Iwo State Conventions to Be Held at Boston This Week

QUINCY DAILY LEDGER.

Boston, Sept. 30.-The state conventions of both political parties in Massachusetts are to be held in the Boston theatre this week, the Democratic on Thursday and the Republican on Friday. The Republicans expect to renominate by acclamation all present state officials with one exception, as follows: Governor, W. Murray Crane of Dalton, Lieutenant-Governor, John L. Bates of Boston; secretary of the commonwealth, William M. Olin of Boston; treasurer and receiver-general, Edward S. Brad-

Henry E. Turner of Malden. Attorney-General Knowlton having declined a renomination after nine years of service, a spirited canvass for this position is in progress between Hon. Herbert Parker of Lancaster, for-Saturday's Race Was the Closest Ever | merly district attorney of the Worcester district, and the Hon. Robert O. Harris, Sailed-Captain of the Shamrock at present district attorney of the southeastern district.

> Another interesting feature of the convention will be an address, with the late President McKinley for his text, by the senior United States senator, the Hon.

The Democrats are now engaged in an effort to make up their state ticket before the state convention, so that the embarrassment which they have sometimes experienced in being obliged at the last hour to hunt around for candidates willing to accept nominations for the minor offices may, if possible, by avoided

The selection of Josiah Quincy for Governor is the only nomination on the state ticket which can be accepted as settled, but there has been a substandebating the question of what the Co. | tial agreement with respect to several other places.

The gossip at the headquarters of the state committee yesterday ran to the effect that the ticket was likely to be: Governor, Josiah Quincy of Boston; for boats. Lieutenant-Governor, John W. Coughlin of Fall River; for secretary of the Hobart of Braintree; for auditor, Thos. C. Thatcher of Yarmouth; for attorneygeneral, A. A. Putnam of Uxbridge. This is a slate which of course, is subject to change.

The Democrats will have a head-Wednesday night, and the Democratic On these two reaches all the racers club will have a dinner there.

PAN-AMERICAN CARNIVAL A Special Program For This Week Introducing Many Novelties

Buffalo, Sept. 30.-In view of recent events at the Pan-American, a number of most attractive and best arranged for plans regarding carnival week have been changed, but in the entire the attractiveness has been increased.

The complete success of the carnival week-Sept. 30 to Oct. 5-at the Pan-American exposition, is assured, as among the other attractions will be the New Orleans Mardi Gras floats used in recent floral parade and carnival at Saratoga Springs. These floats represent ford of Springfield; auditor of accounts, "human passions and characteristics." The original cost of the floats and costumes was \$35,000, and they were made by Bagnetto, who for 21 years, has designed all the floral floats and pageants of the New Orleans Mardi Gras. The programme is now arranged, and

consists of the grand floral parade in sections embracing the 20 floats, decorated carriages, automobiles, bicycles, rolling chairs, jinrikishas, and the strange features of the midway. This will be given on the esplanade on Tuesday, Oct. 1, and will be reviewed from elaborately decorated stands, at the head of which will be President Milburn, Director General Bushanan, the directors of the Pan-American exposition and those judges who have been selected to award the prizes to the local entries. This will really open the carnival week. On the evening of Tuesday there will be a special fireworks display

Wednesday, Oct. 2, there will be, in the daytime, an international tug-of war from a large stage on the esplanade, and special carnival vaudeville performances, using some of the best acts obtainable, and at night a Vene tian lake illumination parade of the decorated and illuminated barges, gondolas, launches, etc., with prizes given for the best illuminated and decorated

On Thursday, Oct. 3, comes the great baby coach parade and baby show. commonwealth, William P. Hayes of Thursday night another special firenature, consisting of many grotesque and comical set pieces.

Friday the second instalment of the carnival fun-making vaudeville acts will be given. The week will conclude with a night parade of Mardi Gras quarters at the United States hotel on floats, King Rex, occupying the throne on the first float, he being selected from among the Midway concessionaries There will be fireworks and a display of special attractions along the midway, provided by the concessionaries.

Drift of Opinion.

It is understood all along the line that Gov. Crane will have a very large vote this year, and some of it will be due to his veto of the elevated railway bill. The people like a man who is not afraid and who stands up for their interests. - Fitchburg Sentinel.

As an extra inducement to attend the Brockton fair this year it is under a good chance. stood that guides are to be detailed to show visitors the location that has been rumors from Ward Three, but regard surveyed for the new canal and to treat them to demonstrations of the ease with which schooners can be navigated through that city. - Haverhill Gazette.

Uncle Gamaliel Bradford mournfully recognizes that Josiah Quincy is "it." but he declares that he will not vote for him if he is, as Quincy's wing of the party does not represent the party at all. Gamaliel is old enough to know a Democrat when he sees one sentative Badger, hold Wollaston reand he doesn't find the right earmarks on Josiah, simply because they are not there. son Learned From Boers. The English war office's new scheme for the training of Tommy Atkins in maneuvers embrace many novelties which will in due course see the light of practical demonstration, says the London Express. Among these none is more interesting or fraught with greater possibilities than the device for training soldiers to locate guns firing smokeless powder.

Arrangements are being made to carry out experiments in this direction at Aldershot, and the sappers have already constructed an ingenious battle field upon Ash ranges which will make field firing very realistic. In the trial to come an infantry force will approach the ranges and will immediately be fired upon by distant guns. Endeavor will be made to locate the fieldpieces and the infantry will move forward in cover. As they advance surprise targets representing cavalry and mounted infantry will spring up on flank and front, an armored train will run out and all the features of a modern battle your landlord is getting rich; it's your field will be represented against the adfault. Fall River Situation

Fall River, Mass., Sept. 30.-Secretary hitehead, of the Textile Council, hav ng received no reply from the manu cturers in regard to the five percent acrease in wages asked for by the oper tives, called a special meeting of the ounced which was held this afternoon n Textile hall.

There was a full representation of all the unions in the city, and the wage question was fully discussed. It was unanimously agreed that in view of the present conditions of the cloth market and of the fact that the two mills of the ity have, within a week, advanced vages five percent, that the other mills ould affard to take the same action.

It was voted that the council insist ipon a five percent increase in wage and a meeting was called for next Wedesday night. In case the council re eives no report to communicate before that time the members voted to reccannend to their various unions that hey refuse to work after Monday, Oct, 7, at the present rate of wages.

Fire Among the Redwoods.

Perhaps the most startling pheno menon of the fire was the quick death of childlike sequoias only a century or two ago, says John Muir in The Atlan tic. In the midst of the other comparaively slow and steady fire work one of these tall, beautiful saplings, leafy and branchy, would be seen blazing up suddenly all in one heaving, booming, passionate flame reaching from the ground to the top of the tree and fifty to a nundred feet or more above it, with a smoke column bending forward and streaming away on the upper free flowng wind.

To burn these green trees a strong ire of dry wood beneath them is required to send up a current of air hot nough to distill inflammable gases from the leaves and sprays; then, instead of the lower limbs gradually catching fire and igniting the next and next in succession, the whole tree seems to explode almost simultaneous ly, and with awful roaring and throb ping a round tapering flame shoots un 200 or 300 feet, and in a second or two is quenched, leaving the green spire a black dead mast bristled and roughened with down curling boughs.

To Cure Round Shoulders. In the case of round shoulders the

nuscles of the back are likely to stiffen from disuse. A special exercise to get them into a limber condition seems to be necessary. QUEER OPTICAL ILLUSION. An Interesting Experiment With

Pencil and a Wire Screen. Professor R. W. Wood recently de scribed a rather startling optical illusion which any one may see with a little practice. A lead pencil is held point up an inch or two in front of a wire screen with a sky background. If the eyes are converged upon the pencil point, the wire gauze becomes some

what blurred and, of course, doubled. As the gauze has a regularly recur ring pattern, however, the two images can be united and, with a little effort, can be accommodated for distinct vision of the combined images of the mesh. As soon as accommodation is secured the mesh becomes perfectly sharp and appears to be nearly in the

plane of the pencil point.

If now the pencil is moved away from the eyes, which are to be kept tirely, it will be found that the sharp images of the combined images of the gauze persist, although the eyes be moved nearer to or farther away from the screen. Now bring the eyes up to within six

or eight inches of the plane in which the mesh appears to be and attempt to touch it with the finger. It is not there. The finger falls upon empty space, the screen being in reality a

"This," says Professor Wood, "is by all means the most startling illusion I have ever seen, for we apparently see something occupying a perfectly definite position in space before our eyes, and yet if we attempt to put our finger on it we find that there is nothing
